INSPIRATION

LANDSCAPE SELECTIONS FOR CHICAGOLAND

SUGGESTED RETAIL PRICE \$9.99

YOUR DREAM GARDEN

is within reach

Are you envisioning your dream garden but uncertain about where to begin? Whether you're considering annuals, perennials, evergreens, or ornamentals, we've got everything you need to transform your outdoor space into a serene oasis. Our carefully curated inspiration guide is designed to assist you in finding the perfect plants that complement your landscape and bring your dream outdoor haven to life.

With our extensive expertise, we're here to fulfill all your gardening and landscaping requirements. Our team members boast a diverse range of gardening and nursery credentials

and take part in continuous training, guaranteeing their proficiency in offering expert advice. Whether you're selecting plants, hardscapes, or outdoor living components for your garden, our knowledgeable team is ready to assist.

Our Lurvey Select® products are handpicked by experienced buyers to ensure a consistent supply of top-notch material. What sets us apart is that our buyers and sales professionals are the same, ensuring a deep understanding of our products and the ability to provide expert guidance.

Let's bring your dream to life!

ABOUT US

As a company, Lurvey is dedicated to helping people improve their outdoor living spaces by providing quality landscape products and exceptional customer service. Our vast inventory and service offerings – enhanced by the interaction between our Sod Farm, Landscape Supply, and Garden Center – demonstrate our capacity to bring your landscape vision into reality. We strive to be a convenient one-stop supplier and invaluable partner to our customers by offering the largest-variety and highest-quality plant and hardscape material in Chicagoland. Being located near your home or job site allows us the opportunity to provide exceptional, highly personalized customer service.

OUR VALUES

“Everybody Serves” - our clients and each other

We believe in the value of personal interaction with our customers. We genuinely care about understanding your needs so we can fully support them. We want your relationship with us to be much more than a purchase; we want you to feel good about your every experience with us.

We are dedicated to helping people improve and enjoy their outdoor surroundings and helping people benefit from being outdoors by providing quality landscape products, sound advice, and providing awareness of both the health and social benefits of being outdoors.

We appreciate and value our suppliers and enjoy building long-term relationships with those who share our commitment to quality products and service. Our supplier's success is paramount to our success.

We believe in our people – in their individual gifts, knowledge, passion, and dedication to their work and to their customers. Lurvey is committed to supporting their needs by providing an enjoyable, rewarding environment and supportive place to learn and grow.

HOW TO USE THIS GUIDE

Whether you want to spruce up your existing landscape or design a whole new one, you'll find that our plant selections create the perfect landscape palette. Here are some tips to help you get the most out of this book, and get started on a more colorful, more eye-catching landscape:

1. Look for plants that provide a range of seasonal interest. We love roses and hydrangeas as much as you do, but the best landscapes incorporate a variety of plants that provide beauty throughout the year. Pick out some spring-blooming favorites, like forsythia, lilac, and Lenten rose, some summertime stunners like butterfly bush and Rose of Sharon, some fall fabulousness like viburnum and sweetspire, and of course, winter wonders like evergreens and winterberry holly.
2. Plant in multiples of odd numbers. Aside from the plants in the Large Plant and Specimens & Ornamentals sections, or unless you are planting a pair of shapely plants on either side of an entry, most things are best planted in groups of 3, 5, or 7. Take a look at some local landscapes you admire to see this principle in action.
3. Have trouble visualizing what the plants will look like around your home? Simply take a photo of your house, print it out in black and white, and roughly sketch in the shapes of the plants you like. It's an easy way to design your landscape and experiment with different possibilities.
4. No landscape? No problem! Many plants can be grown in decorative containers on balconies, patios, porches, and decks.

Look for drawings of a home, like the one above, for hints on how the plants may be positioned in your landscape for maximum enjoyment.

LARGE LANDSCAPE PLANTS

LANDSCAPE MULTI-TASKERS PROVIDE ENVIRONMENTAL BENEFITS

Large trees have a profound impact on the ecosystem in our local areas. These incredible multitaskers play a vital role in shading our homes, purifying the air by removing pollutants, acting as windbreaks, and reducing noise levels. Majestic trees not only enhance the natural beauty of our communities but also contribute to our overall well-being. They offer food and shelter to wildlife and even boost the value of our properties! By planting a large tree in your landscape, you can enjoy the ongoing benefits it provides year after year.

EVERGREENS

'FAT ALBERT'

NORWAY

SPRUCE (Picea)

'FAT ALBERT' (P. pungens)

Compact, dense evergreen | Silvery-blue needles
Deer resistant

NORWAY (P. abies)

Durable, hardy, fast growing evergreen | Large deep green, soft needles

BLACK HILLS (P. glauca)

Dense evergreen | Medium sized | Slower growth rate

SERBIAN (P. omorika)

Tall and narrow evergreen | Average growth rate
Softer needles

BLACK HILLS

SERBIAN

CANADIAN HEMLOCK

'GREEN GIANT'

FIR (Abies concolor)

WHITE FIR

Beautiful and adaptable | Bluish-white color
Tolerates heavy clay soils | Narrow conical

HEMLOCK (Tsuga canadensis)

CANADIAN HEMLOCK

Tolerates partial shade | Soft needles | Deer tolerant | Needs well drained soils

ARBORVITAE (Thuja hybrid)

'GREEN GIANT'

Perfect for privacy or screening | Dark green, soft evergreen foliage | Disease free | Tolerates wide range of soils and light conditions

WHITE FIR

Did you know?

Evergreens drop their foliage too! As our weather and daylight change in the fall, evergreens are triggered to start dropping their needles.

MAPLE (Acer)

AUTUMN BLAZE® (A. x freemanii)

Stunning fall color | Rapid growth | Adaptable
Tolerates most soil types

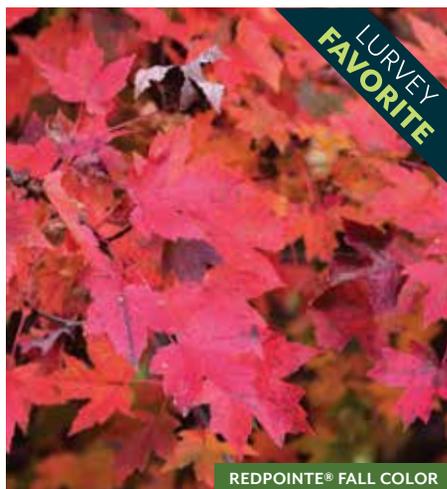

REDPOINTE® FALL COLOR (A. rubrum)

Ideal shade tree for home landscapes | Heat resistant
Bright red fall color

GINKGO (G. biloba)

'AUTUMN GOLD'

Unique fan-shaped leaves | Golden fall color
Fruitless | Tolerates clay soils

DAWN REDWOOD (*Metasequoia glyptostroboides*)

DAWN REDWOOD

Deciduous conifer | Delicate fern-like foliage | Shaggy red bark | Tall and narrow habit | Tolerates wet soils

DAWN REDWOOD

SHAWNEE BRAVE™

BALDCYPRESS
(*Taxodium distichum*)

SHAWNEE BRAVE™

Tall, narrowly pyramidal, deciduous conifer | Narrow, bright green leaves turn golden brown in fall | Prefers moist to wet soils | Tolerates wide range of soil conditions

TRICOLOR

EUROPEAN BEECH
(*Fagus sylvatica*)

TRICOLOR

Colorful accent tree | Green, white, pink, and purple variegated foliage | Deer tolerant | Benefits from afternoon shade

'FORT MCNAIR'

RED HORSE CHESTNUT (*Aesculus x carnea*)

'FORT MCNAIR'

Very showy, pink and yellow panicle flowers in spring | Dense, medium size tree | Disease resistant

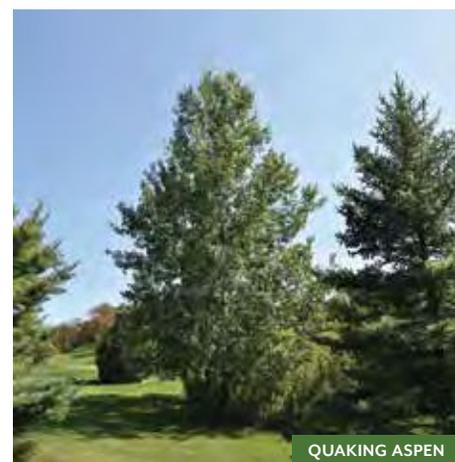

'VANDERWOLF'

LIMBER PINE (*Pinus flexilis*)

'VANDERWOLF'

Dense, narrow and compact pyramidal form | Twisted blue-green needles on very flexible branches

QUAKING ASPEN

QUAKING ASPEN (*Populus tremuloides*)

QUAKING ASPEN

Shimmering green leaves that tremble in the breeze | Brilliant golden-yellow fall color | Smooth white bark adds year-round interest | Fast-growing native tree | Extremely cold hardy and adaptable

SKYLINE®

SWAMP WHITE OAK

HONEYLOCUST (*Gleditsia triacanthos*)

SKYLINE®

Shade tree valued for its delicate foliage appearance
Provides dappled shade | Tough and adaptable

ELM (*Ulmus* hybrid)

TRIUMPH™

Large, vase-shaped shade tree with glossy green foliage | Disease resistant | Fast growing | Adaptable

OAK (*Quercus*)

RED OAK (*Q. rubra*)

Beautiful and artistic shade tree | Red fall color
Durable and extremely long lived

SWAMP WHITE OAK (*Q. bicolor*)

Large, easy to grow shade tree | Durable and long lived | Tolerates wet soil

CRIMSON SUNSET®

MAPLE (*Acer* hybrid)

CRIMSON SUNSET®

Upright and compact ornamental tree | Deep purple summer foliage that matures to maroon-crimson in fall | Great accent tree for smaller home landscapes

AMERICAN SENTRY®

AMERICAN LINDEN (*Tilia americana*)

AMERICAN SENTRY®

Suitable for smaller yards and spaces | Fragrant flowers in spring | Leaves turn rich gold in fall
Midwest native | Resistant to Japanese Beetle

TRIUMPH™

RED OAK

SHADE TREES

MIYABE MAPLE (*Acer miyabei*)

STATE STREET®

Shade tree for smaller landscapes | Yellow fall color
Dense, uniform habit | Durable and adaptable

SUGAR MAPLE (*Acer saccharinum*)

FALL FIESTA®

Reliable shade tree | Fiery blend of fall colors ranging
from yellow to orange and red | Best in larger
landscapes

BIRCH (*Betula populifolia*)

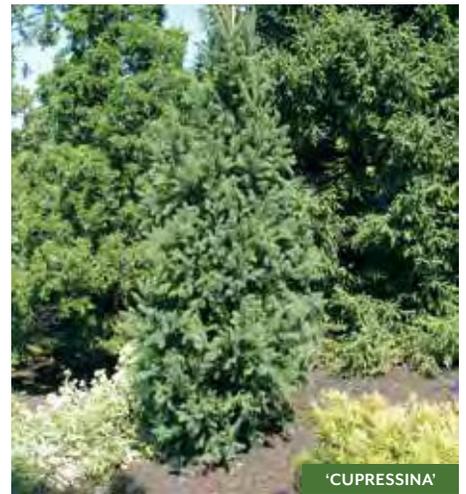

'WHITESPIRE'

Shade tree for smaller landscapes | Yellow fall color
Dense, uniform habit | Durable and adaptable

PARKLAND PILLAR™

'CUPRESSINA'

JAPANESE WHITE BIRCH (*Betula platyphylla*)

PARKLAND PILLAR™

Narrow, upright white birch | Dense, dark green foliage | Yellow fall color | Heat and drought tolerant
Tolerates urban conditions

NORWAY SPRUCE (*Picea abies*)

'CUPRESSINA'

Urban and boundary plantings where strong vertical accents are desired | Withstands snow loads
Evergreen

EUROPEAN HORNBEAM (*Carpinus betulus*)

'FRANS FONTAINE'

Narrow, columnar habit ideal for smaller landscapes
Yellow fall color | Tolerates urban conditions

OAK (*Quercus* hybrid)

CRIMSON SPIRE™

Deep red fall color | Ideal for formal screening | Fast growing | Adaptable to most growing conditions
Dense foliage

RED MAPLE (*Acer rubrum*)

ARMSTRONG GOLD®

Ideal for smaller home landscapes | Tall and narrow habit | Good fall color | Tolerates wet soils

'FRANS FONTAINE'

CRIMSON SPIRE™

ARMSTRONG GOLD®

'LUCAS'

'MONTROSE CHARM'

FIRESPIRE®

COLUMNAR HORNBEAM (*Carpinus betulus*)

'LUCAS'

Dense, tightly columnar form | Thick, durable leaves turn from golden yellow to brown | Excellent screen or narrow hedge

WHITE SPRUCE (*Picea glauca*)

'MONTROSE CHARM'

Fast grower | Reaches 20-30 feet tall | Needles are light green and very short | Cold hardy and drought resistant

AMERICAN HORNBEAM (*Carpinus caroliniana*)

FIRESPIRE®

Forest green deciduous foliage turns an outstanding orange in the fall | Tan hop-like fruit from early fall to late winter

Lurvey Pro Tip:

Deer may be adorable, but they can seriously damage your landscape. If you co-habitate with these furry friends, choose plants that are deer resistant. Deer have been known to eat these plants if they are super hungry, but they typically turn up their noses and find a different buffet!

PARKWAY WARRIORS PALETTE

Tough Beauty for Harsh Spots

Parkways and curb strips face heat, drought, compacted soil, salt, and traffic. Choose plants that don't just survive, they thrive. This palette offers structure, color, and resilience for spaces where conditions are toughest, keeping your landscape beautiful curbside.

PLANT WARRIORS THAT SURVIVE

Gleditsia triacanthos inermis (Thornless Honeylocust)
Open canopy, salt-tolerant

Spiraea japonica (Spirea)
Colorful, hardy, and thrives in poor soils

Echinacea purpurea (Coneflower)
Prairie native that thrives in sun and drought

Nepeta (Catmint)
Fragrant, pollinator-friendly, and resilient

WHY IT WORKS

- Deep-rooted natives endure reflected heat and salt
- Layered planting adds rhythm and seasonal color
- Once established, this mix asks for little more than cleanup and sunshine

CUT-FLOWER & BOUQUET GARDEN

Grow Your Own Fresh-Cut Beauty

A garden designed for cutting brings the joy of flowers indoors all season long. By choosing plants with strong stems, long vase life, and staggered bloom times, you can create fresh arrangements from spring through fall. These garden favorites are as beautiful in the landscape as they are in a vase, making them perfect for gardeners who love to harvest and enjoy their blooms inside.

Lurvey's Cut-Flower Picks for Each Season

SPRING TO EARLY SUMMER BLOOMS

Paeonia
(Peony)

'Karl Rosenfield'

Large, fragrant blooms with excellent vase life

MID-SUMMER BLOOMS

Phlox paniculata
(Garden Phlox)

'David'

Fragrant clusters perfect for mixed bouquets

LATE SUMMER TO FALL BLOOMS

Sedum
(Stonecrop)

'Autumn Joy'

Thick stems and excellent drying potential

FLOWERING SHRUBS FOR CUTTING

Hydrangea paniculata
(Panicule Hydrangea)

'Limelight'

Strong stems and large blooms that dry beautifully

WHY IT WORKS

- Succession bloom ensures fresh flowers from early spring through fall
- Strong stems hold up well in both garden and vase
- Many selections offer dual-purpose beauty — landscape impact and indoor enjoyment

DESIGN & HARVEST TIPS

- Harvest in the early morning for the longest vase life
- Cut stems at an angle and condition in water immediately
- Deadhead regularly to encourage repeat blooming
- Pair bold focal flowers with airy fillers and foliage for balanced arrangements

SPECIMENS & ORNAMENTALS

YOUR LANDSCAPE'S MOST STYLISH STATEMENT

Specimen plants are like living masterpieces for your garden, adding a touch of art to your landscape. These plants are usually larger and stand out on their own. They are carefully chosen for their stunning structures, vibrant colors, or impressive blooms, making a bold statement that enhances the beauty of your home's architecture and design. You can place specimen plants in various locations, such as between windows, near a cozy fireplace, at the center of a spacious flower bed, or to define the edges of your house. As you browse through the following pages, take note of the plants that captivate your imagination. No matter your preference or style, there is a perfect specimen plant waiting to meet your landscape needs.

If you find yourself drawn to more than one plant, you don't have to pick just one! A specimen plant is a focal point of a portion of your landscape, so there's room for multiple specimens within one yard. For maximum impact, look for plants that peak at different times of the year so the focus shifts throughout the season. Don't forget about the back and sides of your home – specimen plants aren't just for the passersby. They can be a key part of your private retreat as well.

'APHRODITE'

SWEETSHRUB (Calycanthus hybrid)

'APHRODITE'

Sweet, spicy flower fragrance from red flowers in mid Summer | Blooms on old and new wood | Great gold fall color

'BIZON BLUE'

SPRUCE (Picea)

'BIZON BLUE' (P. pungens)

Bright blue foliage | Dwarf form | Conical shape

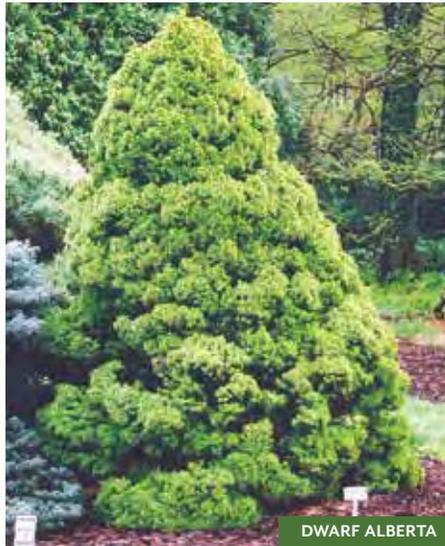

DWARF ALBERTA (P. glauca)

Dense, compact pyramidal evergreen | Slow-growing

MUGO PINE (Pinus mugo)

'SLOWMOUND'

Dense, mounding evergreen | Very compact

DWARF ALBERTA

'SLOWMOUND'

Landscaping Tip:

The strongly horizontal presence of dogwood is balanced by planting vertically growing 'Bizon Blue' and Dwarf Alberta Spruce. The interplay of greens and blues provides visual contrast year-round.

SPECIMENS & ORNAMENTALS

DOGWOOD (*Cornus alternifolia*)

PAGODA

Beautifully tiered horizontal branching habit | Prefers afternoon shade and rich, acidic soil | Native plant and bird friendly

PAGODA

SMOKEBUSH (*Cotinus coggygria*)

WINECRAFT BLACK®

Dwarf rounded habit, perfect fit for smaller landscapes | Dark red-purple leaves with flowers like puffs of smoke | Deer and rabbit resistant

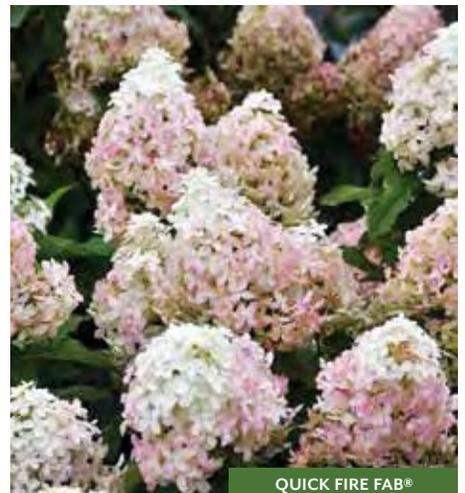

WINECRAFT BLACK®

PANICLE HYDRANGEA (*H. paniculata*)

QUICK FIRE FAB®

Large 12" white flowers that turn light pink and finally dark pink in the fall | Sturdy stems make great cut flowers

QUICK FIRE FAB®

COMPACT BURNING BUSH

IVORY HALO®

TATARIAN DOGWOOD (*Cornus alba*)

IVORY HALO®

Showy white variegated foliage | Creamy white flowers in spring | Brilliant red stems | Compact, hardy shrub

'COMPACTA'

FALSECYPRESS (*Chamaecyparis obtusa*)

'COMPACTA'

Dense, dark green fan-shaped foliage | Naturally compact, slow-growing habit | Elegant evergreen structure year-round | Low-maintenance and adaptable | Ideal accent for foundations and rock gardens

WINGED BURNING BUSH (*Euonymus alatus*)

COMPACT BURNING BUSH

Great red fall color | Winged branches hold snow in the winter for an attractive ornamental feature
Tolerates sun to shade

Did you know?

Balled & Burlapped (B&B) plants are larger and typically only harvested in spring and fall. Once harvested, they can be planted any time during the growing season and are more tolerant of drought conditions. Container plants are much less heavy and easier to plant! For "do-it-yourself" gardeners or rooftop installations, container plants are the way to go! Potted plants will require a bit more water until established.

SPECIMENS & ORNAMENTALS

Meet one of the landscape's most versatile – and best-loved – flowering shrubs. Rose of Sharon can do so many different things in the landscape that it's hard to limit them to just one role. Whether you choose to plant yours as a stunning specimen, lush flowering hedge, or floriferous border plant, you can look forward to months of low-maintenance summer color for years to come.

ROSE OF SHARON (*Hibiscus syriacus*)

CHIFFON® SERIES

Large flowers with “powderpuff” centers | Graceful, elegant habit | Months of summer blooms

BLUE CHIFFON®

Semi-double, blue trumpet-shaped flowers with violet throats in mid-summer | Very adaptable to many soil conditions

LAVENDER CHIFFON®

Frilly, semi-double lavender-pink flowers in summer | Adaptable to many site conditions | Full sun

PINK CHIFFON®

Vase-shaped habit | Showy double pink flowers in summer | Very adaptable to many soil conditions

WHITE CHIFFON®

Large white anemone-like flowers with fringed centers in summer | Very adaptable to many soil conditions

SATIN® SERIES

Pure, true colors | Graceful, elegant habit

AZURRI BLUE SATIN®

Large fuchsia flowers with bright red centers throughout summer | Seedless variety | Very adaptable to many soil conditions

ROSE OF SHARON (Hibiscus syriacus)

WHITE PILLAR®

Pure white, semi-double flowers | Upright narrow shrub

'ARDENS'

Extremely showy double lilac-purple flowers in summer | Very adaptable to many site conditions

'LUCY'

Smaller size Rose of Sharon | Double magenta-pink flowers

'MINERVA'

Light purple flowers with dark red center | Flowers mid-summer through fall

ROSE OF SHARON (Hibiscus hybrid)

SUMMERIFIC® 'BERRY AWESOME'

Huge, 7-8" berry-pink blooms with deep red centers | Bold, dark foliage adds dramatic contrast | Compact, sturdy habit | Heat tolerant and easy to grow | Tropical look for sunny borders and containers

AZURRI BLUE SATIN®

WHITE PILLAR®

'ARDENS'

SUMMERIFIC® 'BERRY AWESOME'

'LUCY'

'MINERVA'

SPECIMENS & ORNAMENTALS

PANICLE HYDRANGEA (*H. paniculata*)

FIRE LIGHT®

Enormous white and pink blooms in mid-summer through fall | Blooms dry to brown for winter interest
Requires well-drained soils, but adaptable to many sites

LIMELIGHT PRIME®

Improved version of a longtime favorite | Sterile lime flowers turn white then antique pink and finally dry golden brown for winter interest | No bees

QUICK FIRE®

Blooms one month sooner than other panicle hydrangea | White blooms quickly fade to pink then rich rose

LOVE-A-LOT™ PINK

Large 12" white flowers that turn light pink and finally dark pink in the fall | Sturdy stems make great cut flowers

OAKLEAF HYDRANGEA (H. quercifolia)

Fabulous fall color | The most shade tolerant hydrangea native to North America

'ALICE'

Showy flowers start milky white and fade to pink
Fragrant flowers | Interesting foliage with reliable burgundy fall color

'RUBY SLIPPERS'

Compact selection | Showy white flowers that quickly turn deep pink | Mahogany fall color

'SNOW QUEEN'

Showy white flowers fade to pink | Interesting foliage with reliable brick red fall color

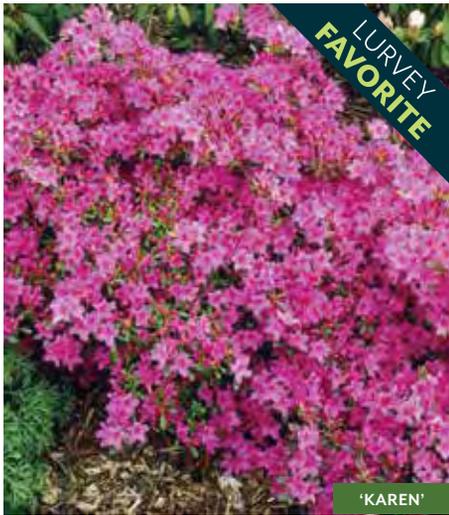

Lurvey Pro Tip:

Make a bold statement in your shady areas with Oakleaf Hydrangea! These underused plants are very hardy in our area and put on an amazing show with huge flowers and great fall color!

SPECIMENS & ORNAMENTALS

AZALEA (Rhododendron hybrid)

'KAREN'

Clusters of bright lavender-pink blooms in spring
Hardy, compact broadleaf evergreen | May drop foliage in the midwest during extremely cold winters

FLOWERING CRABAPPLE (Malus hybrid)

SPARKLING SPRITE®

Pink buds open to fragrant white flowers | Top-grafted, compact selection | Persistent golden fruit turns orange | Yellow fall color

NINEBARK (Physocarpus opulifolius)

SUMMER WINE®

Multiple seasons of interest | Dark purple foliage
Clusters of flowers covering branches top to bottom
Attractive peeling bark

WINTERBERRY HOLLY (Ilex verticillata)

'RED SPRITE'

Naturally dwarf, deciduous holly with bright red berries | Requires male pollinator such as 'Jim Dandy' for berry production | Moist soils | Excellent when massed

JUNIPER (Juniperus chinensis)

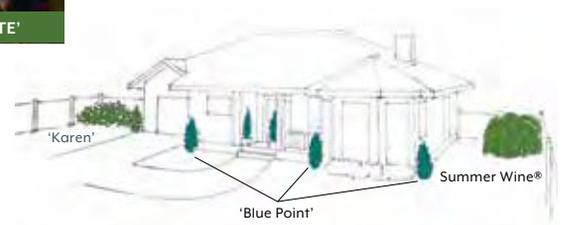

'BLUE POINT'

Cool blue foliage | Naturally grows as a narrow column | North American native

Landscaping Tip:

'Blue Point' Juniper provides a vertical element to the landscape while 'Karen' Azalea and Summer Wine® Ninebark helps fill in corner spaces.

YOSHINO CHERRY (*Prunus subhirtella*)

SNOW FOUNTAINS®

Graceful weeping branches | Covered in cherry blossom flowers in spring | Disease and insect resistant

ARBORVITAE (*Thuja occidentalis*)

'YELLOW RIBBON'

Golden yellow tipped foliage | Compact size evergreen for smaller landscapes

ELDERBERRY (*Sambucus nigra*)

BLACK LACE®

Native | Dark black-purple cut leaves | Graceful wide spreading habit | Attracts wildlife

RED ELDERBERRY (*Sambucus racemosa*)

LEMONY LACE®

Chartreuse to golden colored lacy leaves | Deer resistant

Landscaping Tip:

Conical evergreens like 'Yellow Ribbon' Arborvitae are often planted on either side of a front door to provide a hint of formality to a home's entrance. In this case, the plants function more or less as mirror-image specimens of one another.

SPECIMENS & ORNAMENTALS

EASTERN REDBUD (*Cercis canadensis*)

LAVENDER TWIST®

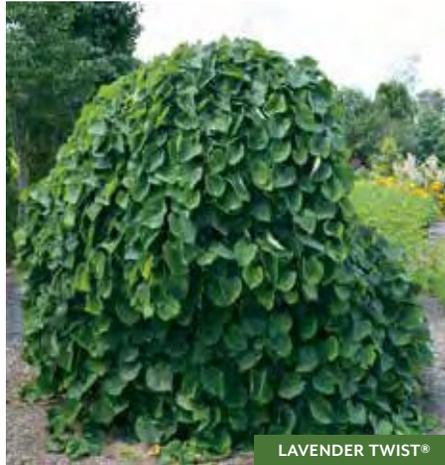

Gracefully arching branches | Twisted trunk | Showy pink to purple flowers

'RUBY FALLS'

Beautiful dark red-burgundy leaf | Magenta-pink flowers cover branches in early spring | Compact, weeping form

'FOREST PANSY'

Spectacular early spring bloomer | Showy pink to purple flowers | Heart-shaped, deep purple leaves

REBLOOMING WEIGELA (*W. florida*)

SONIC BLOOM® PINK

Reblooming | Pink trumpet-like blooms in clusters from spring to fall | Attracts pollinators | Mounded

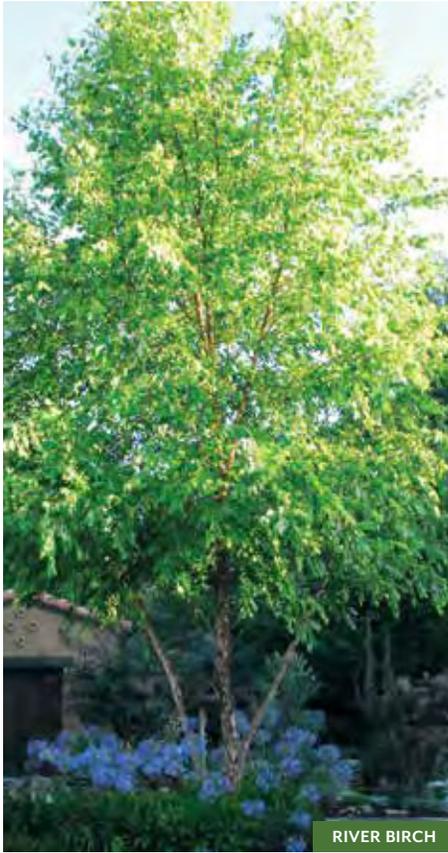

SONIC BLOOM® PUNCH

Super compact plant with richly colored punch-pink flowers covering the plant in spring | Reblooms late summer and fall | Lightly bronze tinged foliage on this middle border beauty

Landscaping Tip:

Weigela has an elegant, arching habit that functions as an anchor to large beds. Select your favorite of the reblooming Sonic Bloom® series for color that lasts much longer than conventional weigela.

RIVER BIRCH

EASTERN REDBUD (*Cercis canadensis*)

EASTERN REDBUD

A spectacular spring bloomer | Very showy pink to purple flowers held tightly on bare branches in early spring

'ACE OF HEARTS'

Reddish pink, pea-like flowers in early spring | Grayish green foliage | Oval leaves turn yellow in fall | Dwarf selection

SEVEN-SON FLOWER (*Heptacodium miconioides*)

SEVEN-SON FLOWER

Fragrant creamy-white flowers in late summer to early fall | Showy rose-pink calyces and red fruits extend color into fall | Large, fountain-shaped multi-stem shrub or small tree | Exfoliating tan bark adds winter interest | Pollinator-friendly and adaptable

'ORANGEOLA'

JAPANESE MAPLE (*Acer palmatum*)

'ORANGEOLA'

Emerges tomato-orange in spring | Leaves are highly ornamental and turn outstanding shades of orange and scarlet in the fall

RIVER BIRCH (*Betula nigra*)

RIVER BIRCH

Pointy leaves turn an outstanding yellow in the fall | Peeling brown bark is extremely showy

EASTERN REDBUD

'ACE OF HEARTS'

SEVEN-SON FLOWER

SPECIMENS & ORNAMENTALS

FLOWERING CRABAPPLE (Malus hybrid)

RED JEWEL™

Fragrant white flowers mid-spring | Fruits are showy cherry red pomes carried in abundance from early fall to late winter

ROYAL RAINDROPS®

Fragrant rose flowers | Deep purple foliage throughout the season | Fruits are showy red pomes carried in abundance from early to late fall

CORALBURST®

Coral-pink flower buds before the leaves | Fruits are showy tomato-orange pomes carried in abundance from early fall to late winter

JAPANESE MAPLE (Acer palmatum)

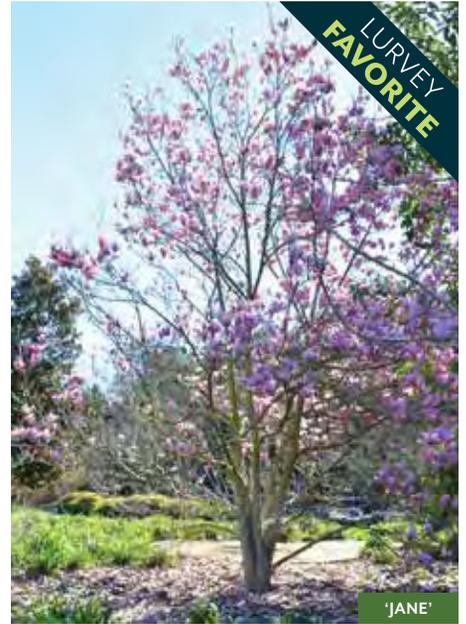

'BLOODGOOD'

Attractive burgundy foliage which emerges deep purple in spring | Scarlet fall color | Subtle corymbs of red flowers rising above the foliage in mid-spring

'CRIMSON QUEEN'

'JANE'

MAGNOLIA (M. hybrid)

'JANE'

Large flowers with petals that are reddish-purple on the outside and white inside | Flowers tend to open later and avoid frost damage | Lightly scented fragrance | Coppery-bronze fall color

'TAMUKEYAMA'

JAPANESE MAPLE (Acer palmatum)

'CRIMSON QUEEN'

Deep purple foliage which emerges crimson in spring
Shades of scarlet and orange in the fall

'TAMUKEYAMA'

Attractive burgundy foliage which emerges crimson in spring | Outstanding red fall color | Red samaras
Rough gray bark

Did you know?

Lurvey Select® plants are hand-tagged by our plant buying team. We travel throughout the country finding the best looking, hardiest specimen plants for all of our locations!

SPECIMENS & ORNAMENTALS

MAGNOLIA (*M. stellata*)

'ROYAL STAR'

Fragrant white star-shaped flowers with yellow eyes
Leaves turn coppery-bronze in fall

VIBURNUM

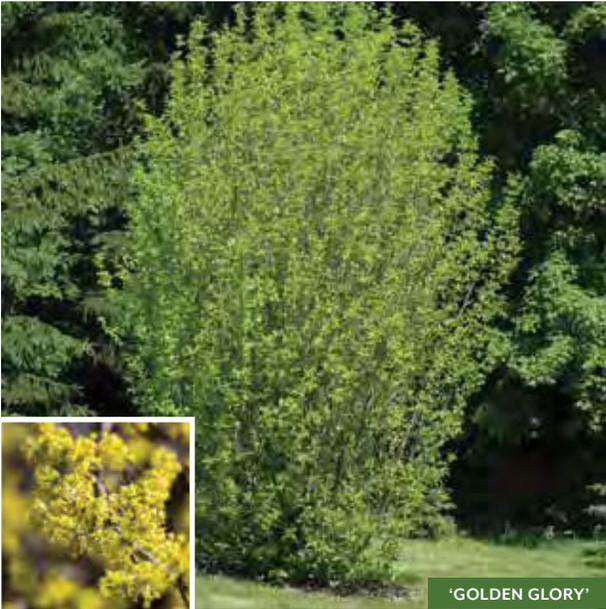

DOUBLEFILE (*V. plicatum tomentosum*)

One of the highest quality garden shrubs available
Showy flat-topped clusters of white flowers in spring
followed by prominent red fruit | Good burgundy-red
fall color

BLACKHAW (*V. prunifolium*)

Showy, creamy white flat-top flowers | Royal blue
fruits are held in abundance in spectacular clusters
from early fall to late winter

CORNELIAN CHERRY DOGWOOD (*Cornus mas*)

'GOLDEN GLORY'

Clusters of yellow flowers from late winter to early spring before leaves emerge
Peeling brown bark adds an interesting dimension to the landscape

JAPANESE TREE LILAC (*Syringa reticulata*)

'IVORY SILK'

Showy plumes of fragrant creamy white flowers | Smooth dark red bark is unique in the landscape

EUROPEAN HORNBEAM (*Carpinus betulus*)

'FASTIGIATA'

Tightly pyramidal | Dark green foliage with yellow fall color | Smooth grey bark

Lurvey Pro Tip:
While planning your landscape, space your plants according to their expected width at maturity. Remember, the plants you are installing today are a fraction of the size they will be in the next 2, 5, or even 50 years!

SUN LOVING & DEER RESISTANT

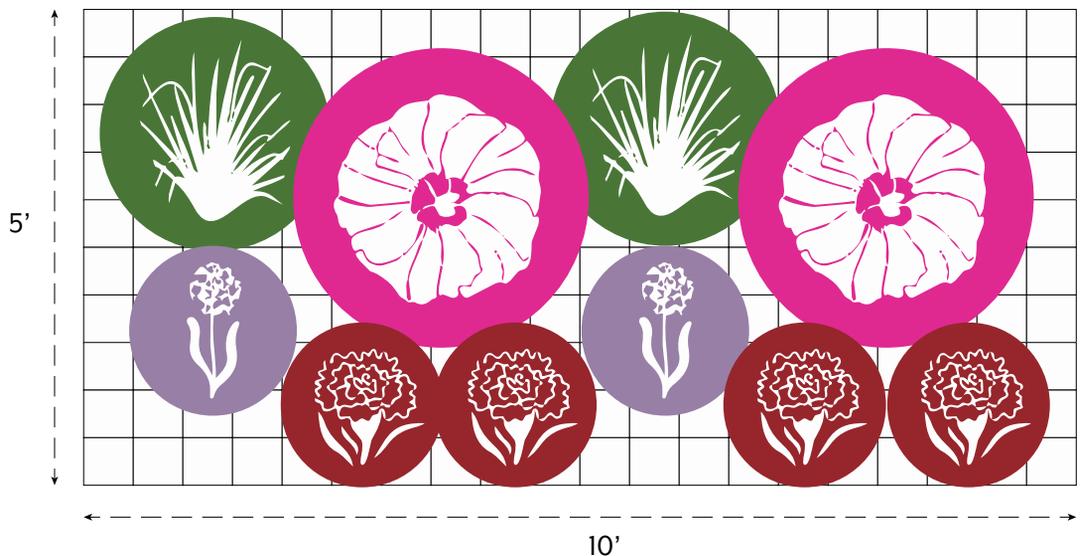

Design

Enjoy nonstop color with Dianthus, Allium, Hibiscus, and Ornamental Grasses—this sun-loving, deer-resistant garden thrives from spring through winter.

Flow through the seasons with the effortless floral impact of this garden. The stunning blooms of Dianthus will get things started in spring with a carpet of color. Allium will follow in summer with numerous globe-shaped clusters of lilac purple flowers. As the display of allium blooms winds on, Summerific® 'Berry Awesome' Hibiscus will burst onto the scene with massive pinwheel-like flowers. Steady through the season, the decorative seedheads of the PRAIRIE WINDS® Ornamental Grass will provide fall and winter interest if not cut back. Look for blue tones in the Allium and Dianthus foliage to complement the purple and pink flowers.

BORDERS

THE SUPPORTING CAST OF YOUR LANDSCAPE

DOUBLE PLAY DOOZIE®

SUMMER WINE®

BOBO®

SPIREA (Spiraea hybrid)

DOUBLE PLAY DOOZIE®

Deep purple-red emerging foliage transitions to light green | Clusters of purple-red to pink blooms in spring that continue through summer | Reblooming
Seedless | Outstanding brick red fall color

NINEBARK (Physocarpus opulifolius)

SUMMER WINE®

Deep red-purple foliage | Hundreds of showy white flower clusters in late spring | Native to North America

PANICLE HYDRANGEA (H. paniculata)

BOBO®

Smothered with lacy white flowers in summer that soften to pink towards fall | Dwarf selection | Very hardy and reliable

PINKY WINKY PRIME®

Bold conical white flowers in mid to late summer which fade to a deep pink | Flowers are excellent for cutting or will dry to brown on plant for winter interest

These plants are often referred to as foundation plantings because they are commonly used to cover or soften the appearance of your house's foundation. They are a reliable choice for enhancing the beauty of your landscape all year round. Unlike individual plants, border plants offer a fun opportunity to mix and match colors, shapes, and sizes, filling in the gaps between other elements in your landscape. Generally, the border plants featured here are shorter than 5 feet and naturally grow in an appealing shape. The spaces in your landscape that can be filled with these border plants present the perfect chance to explore your favorite plants (how about some hydrangeas?!) or try something new and exciting.

PANICLE HYDRANGEA (*H. paniculata*)

FIRE LIGHT TIDBIT®

Compact, cold hardy variety | White and pink blooms in mid-summer through fall | Adaptable, tolerates most soils that are well drained

BORDERS

LO & BEHOLD® 'PURPLE HAZE'

BUTTERFLY BUSH (Buddleia hybrid)

LO & BEHOLD® SERIES

Dwarf habit | Very, very long blooming | Non-invasive

LO & BEHOLD® 'PURPLE HAZE'

Showy purple spikes of flowers in late summer through fall | Attracts butterflies | Blooms on new wood

LO & BEHOLD® 'BLUE CHIP JR.'

Compact garden plant with showy spikes of deep blue flowers in late summer | Attracts butterflies | Blooms on new wood | Great for smaller spaces

SHRUB ROSE (Rosa hybrid)

PETITE KNOCK OUT®

Low maintenance | Superior disease resistance | Long period of bloom | Bright red flowers | Dwarf variety

LO & BEHOLD® 'BLUE CHIP JR.'

PETITE KNOCK OUT®

Lurvey Pro Tip:

Creating a Butterfly Garden

Many flowering plants will attract butterflies, but not all flowers are created equally. Selecting plants that will feed butterflies, while also encouraging them to create new generations, is your goal. Learn which plants to select.

Landscaping Tip:

Butterfly bush are excellent candidates for containers, since they bloom all summer long. Use pots with good drainage, as wet soil and butterfly bush definitely don't mix.

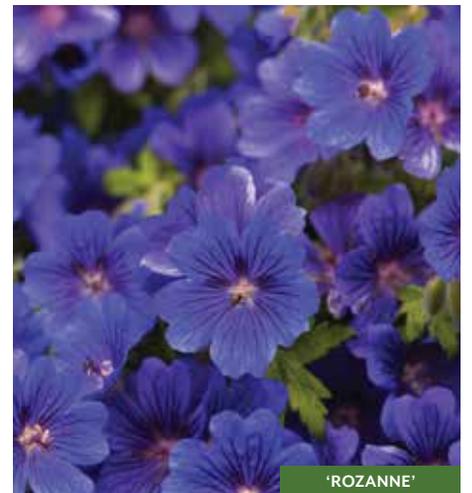

'MISS MOLLY'

BUTTERFLY BUSH (Buddleia hybrid)

'MISS MOLLY'

Showy panicles of fragrant hot pink flowers from mid-summer to mid-fall | Flowers are excellent for cutting
Attracts butterflies

'ROZANNE'

CRANESBILL (Geranium hybrid)

'ROZANNE'

Blue flowers with white eyes | Deeply cut, lobed palmate leaves are forest green in color | Foliage turns a gorgeous red in the fall

BORDERS

DWARF JAPANESE BARBERRY
(*Berberis thunbergii*)

'CRIMSON PYGMY'

Reddish-purple foliage | Showy scarlet fruit
Outstanding dark red fall color

SPIREA (*Spiraea japonica*)

'GOLDFLAME'

Clusters of hot pink flowers in summer | Foliage
emerges bright red and fades to yellow in summer
Outstanding deep red fall color

'GOLDMOUND'

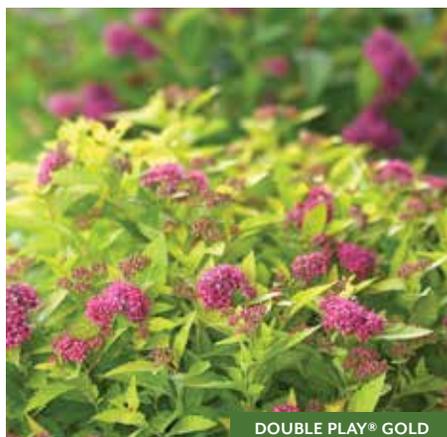

Stunning clusters of rose flowers in early summer
Bronze emerging foliage turns light gold in summer
Outstanding red fall color | Dwarf variety

SPIREA (*Spiraea* hybrid)

DOUBLE PLAY® GOLD

Color arrives early in spring | Electric purple blooms
make a truly eye-popping color combo | Compact
variety

Lurvey Pro Tip:

Pruning shrubs can encourage more
flowers, better leaf color and overall
plant health.

'GOLDEN MOP'

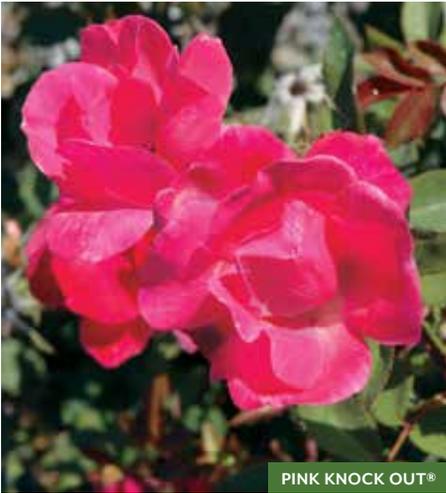

FALSECYPRESS (*Chamaecyparis pisifera*)

'GOLDEN MOP'

Yellow thread-leaf foliage emerges gold in spring
Compact variety | Foliage turns lime green in fall
Evergreen

KNOCK OUT®

PINK KNOCK OUT®

DOUBLE KNOCK OUT®

SHRUB ROSES (*Rosa hybrid*)

KNOCK OUT® SERIES

Easy to grow | Repeat blooming from spring until frost

KNOCK OUT®

Smothered in stunning lightly scented cherry-red flowers from late spring until frost | Burgundy fall color
Disease resistant shrub rose

PINK KNOCK OUT®

Hardy shrub rose with hot pink flowers from late spring until frost | Fruits are showy red hips displayed in late fall

DOUBLE KNOCK OUT®

Care-free landscape shrub rose | Lightly scented, double cherry-red flowers from late spring until frost
Deep purple fall color

Lurvey Pro Tip:

Roses have a reputation for being difficult to prune, but don't let their thorny stems intimidate you! It's important to prune roses at least once per year, but summer pruning will promote more flowers.

BORDERS

SLENDER DEUTZIA (*D. gracilis*)

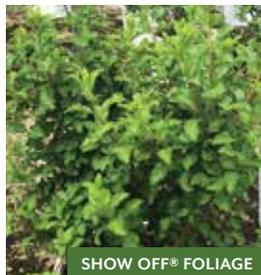

CHARDONNAY PEARLS®

White pearl buds open to fragrant clusters of white mockorange-like flowers in early summer | Chartreuse foliage all season | Deer resistant

FORSYTHIA (*F. x intermedia*)

SHOW OFF®

Brilliant yellow bell-shaped flowers in early spring along the branches | Flowers are excellent for cutting | Forest green foliage throughout the season

Landscaping Tip:

Spring flowering shrubs are irresistible, but be sure to mix them with other shrubs and perennials that flower at different times of the year to keep your landscape colorful and interesting all the way until frost.

'BRONX'

LITTLE LIME PUNCH®

GARDENII

'MT AIRY'

FORSYTHIA (*F. viridissima*)

'BRONX'

Showy lemon-yellow bell-shaped flowers along branches in early spring before the leaves | Lime green foliage throughout the season

PANICLE HYDRANGEA (*H. paniculata*)

LITTLE LIME PUNCH®

Blooms emerge lime green | Flowers change progressively from the bottom up in white, light pink, and rich Hawaiian Punch red | Compact habit and strong stems

FOTHERGILLA (*F. gardenii*)

GARDENII

Compact ornamental shrub | Fragrant, creamy white, fuzzy bottlebrush flowers | Brilliant medley of yellow, red, and orange fall color

FOTHERGILLA (*F. major*)

'MT AIRY'

Showy spikes of fragrant white flowers in mid-spring before the leaves | Bluish-green foliage throughout the season | Leaves turn an outstanding scarlet in the fall

BORDERS

ROSE OF SHARON (*Hibiscus syriacus*)

LIL' KIM® SERIES

Dwarf Rose of Sharon make perfect garden plants
Months of colorful blooms each summer

LIL' KIM® RED

Extremely showy rose-colored flowers with red centers and veins throughout summer | Very adaptable plant, but prefers full sun | Dwarf selection

LIL' KIM®

Bold shell pink trumpet-shaped flowers with a red blotch from mid-summer to early fall | Very adaptable plant, but prefers full sun

Landscaping Tip:

Use Lil'® Kim Rose of Sharon in a decorative container to enhance and diversify your patio plantings.

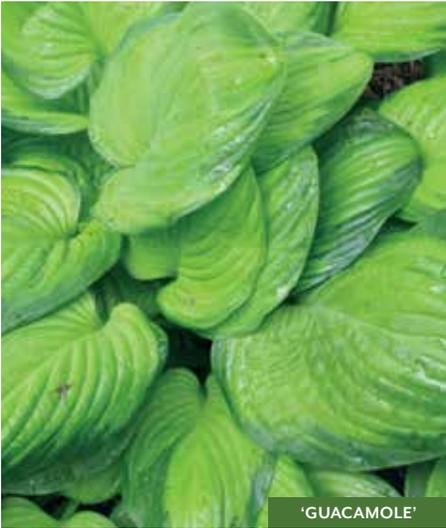

CRANESBILL (*Geranium sanguineum*)

'MAX FREI'

Masses of beautiful fuchsia flowers with white eyes from spring to mid-summer | Most effective when planted in groupings | Gorgeous red fall color

'GUACAMOLE'

RHODODENDRON (R. hybrid)

'NOVA ZEMBLA'

Attractive broadleaf evergreen shrub with rich red flowers in spring | Prefers well-drained, highly acidic and organic soil

'NOVA ZEMBLA'

HOSTA

'GUACAMOLE' (H. hybrid)

Large heart-shaped chartreuse leaves with showy emerald-green variegation throughout the season
Dainty spikes of white bell-shaped flowers rising above foliage in mid-summer

'ELEGANS' (H. sieboldiana)

Dainty spikes of white bell-shaped flowers rising above the foliage in mid-summer | Enormous textured heart-shaped leaves emerge powder blue in spring

'ELEGANS'

Lurvey Pro Tip:

Add POPS of color into your landscape by planting early flowering bulbs into perennial beds, incorporating summer and fall annuals into garden beds and adding container plantings.

BORDERS

'ANNABELLE'

SMOOTH HYDRANGEA (*H. arborescens*)

'ANNABELLE'

Hardy, showy shrub with enormous ball-shaped white flowers in mid-summer | Flowers dry brown in late fall and provide winter interest | Best when pruned to a few inches from the ground in early spring | Blooms on new growth

VIRGINIA SWEETSPIRE (*Itea virginica*)

'HENRY'S GARNET'

Fragrant white flowers at the ends of the branches in early summer | Outstanding burgundy in the fall
Improved selection of native shrub

LITTLE HENRY®

Fragrant white flowers at the ends of the branches in early summer | Outstanding burgundy in the fall

'HENRY'S GARNET'

LITTLE HENRY®

Did you know?

In the Chicagoland area, Sweetspire are considered a die-back shrub, meaning they will die back to the ground most winters. Never fear, they will rebound quickly when the temperatures warm in late spring.

SWEETSPIRE FALL COLOR

ENDLESS SUMMER®

BIG LEAF HYDRANGEA (H. macrophylla)

ENDLESS SUMMER®

Enormous deep pink globe-shaped flowers turn blue in acidic soil | Prune only in summer after bloom

BLOOMSTRUCK®

Re-blooming hydrangea with vivid rose-pink to blue-purple flower heads depending on soil pH | Deep green foliage accented with red petioles and red-purple stems | Strong stems with excellent heat tolerance | Exceptional disease resistance, especially against powdery mildew

SMOOTH HYDRANGEA (H. arborescens)

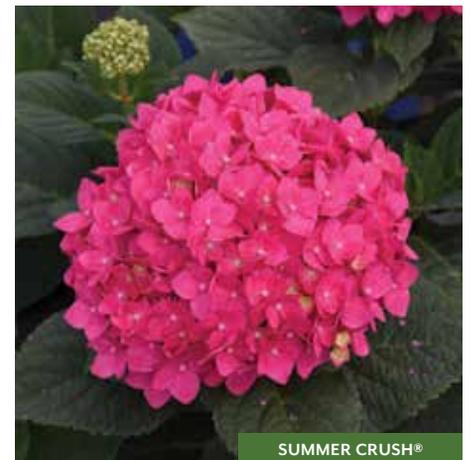

LET'S DANCE ¡ARRIBA!®

Large, dense flowers have strong color in any type of soil | Blooms look gorgeous well into fall | Fills in and grows to maturity quickly

BIG LEAF HYDRANGEA (H. macrophylla)

SUMMER CRUSH®

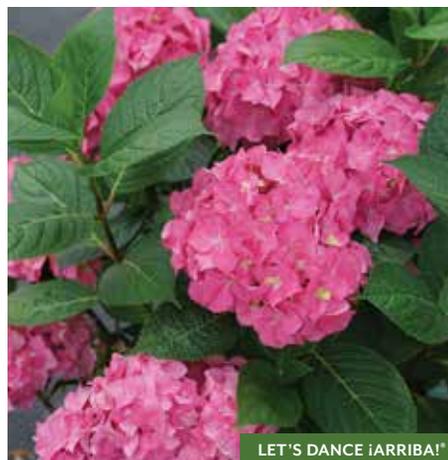

Very hardy | Large, intensely colored raspberry red or neon purple globe-shaped flowers | Dark green glossy leaves

SUMMER CRUSH®

BLOOMSTRUCK

LET'S DANCE ¡ARRIBA!®

Lurvey Pro Tip:

Team Pink or Team Blue? Very few plants allow you to change your mind on flower color after planting. Many hydrangeas allow you to do just that! Soil pH is the key to getting your perfect color.

BORDERS

PANICLE HYDRANGEA (H. paniculata)

FIRE LIGHT®

Enormous white and pink blooms mid-summer through fall | Blooms dry to brown for winter interest
Requires well-drained soils, but adaptable to many sites

LITTLE LIME®

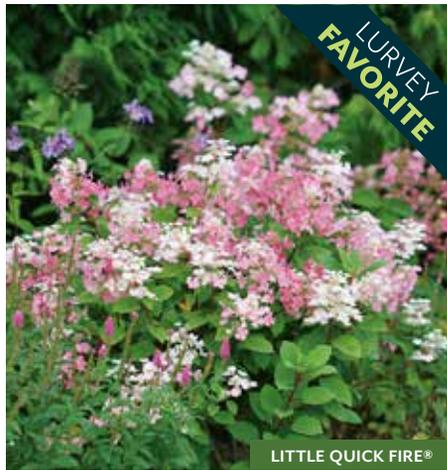

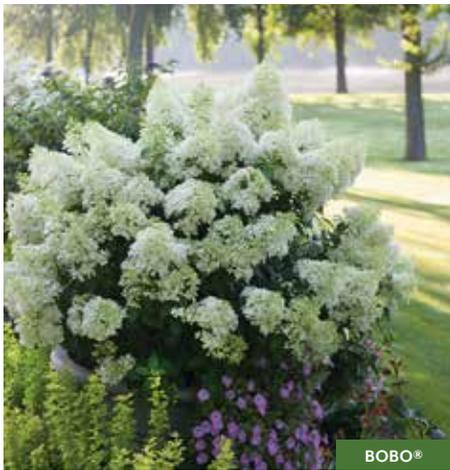

This compact shrub is a smaller form of 'Limelight'
Large conical flower heads that start chartreuse and change to pink in the cooler, late-season weather
Blooms last into fall

BOBO®

Smothered with lacy white flowers in summer that soften to pink towards fall | Dwarf selection | Very hardy and reliable

LITTLE QUICK FIRE®

Dwarf version of first-to-bloom Quick Fire®
Hydrangea | Lacecap flowers start white and turn rich rose | Months of blooms | Flowers well in partial shade

Lurvey Pro Tip:

Hydrangeas are absolutely one of the most beautiful and easiest to grow plants! There's just one catch, you must know which type you are growing! There are 6 main types of hydrangea and they all need slightly different care.

TINY TUFF STUFF™

TUFF STUFF™ RED

MOUNTAIN HYDRANGEA (H. serrata)

TUFF STUFF™ SERIES

Hardier and more reliable than bigleaf hydrangea
Colorful lacecap flowers lend an informal look
Reblooming

TINY TUFF STUFF™

Reblooming shrub featuring showy white to light pink lacecap flowers with creamy centers | Flowers turn blue in acidic soil | Reblooms on new and old wood | Deep green leaves turn burgundy in fall

TUFF STUFF™ RED

Reblooming shrub featuring deep pink-red lacecap flowers with creamy centers | Flowers turn blue in acidic soil | Reblooms on new and old wood Deep green leaves turn burgundy in fall

TUFF STUFF™

Reblooming shrub featuring showy white to light pink lacecap flowers with creamy centers | Flowers turn blue in acidic soil | Re-blooms on new and old wood | Deep green leaves turn burgundy in fall

Mountain hydrangeas stay dormant longer and bloom later than bigleafs, so they are far less susceptible to temperature extremes killing off tender buds. They also have another advantage in their smaller leaves. With their smaller leaves, mountain hydrangeas are more tolerant of harsh sun and heat, making them a better fit for warmer months.

TUFF STUFF™

BORDERS

CATMINT (*Nepeta x faassenii*)

'WALKER'S LOW'

Masses of beautiful spikes of lightly scented royal blue flowers from late spring to early fall | Most effective when planted in groupings | Fragrant leaves remain grayish green in color throughout the season

ARBORVITAE (*Thuja occidentalis*)

'GOLDEN GLOBE'

Distinctive landscape evergreen for color effect, featuring showy gold foliage all season | Forms a dense rounded ball shape without pruning | Turns harvest gold in fall

FALSE SPIREA (*Astilbe chinensis*)

'VISIONS'

Masses of beautiful plumes of cherry red flowers from early to mid-summer | Most effective when planted in groupings

Lurvey Pro Tip:

Successful landscapes combine plants with complementary and contrasting growing seasons so the landscape never looks empty. While planning your landscape, create a chart of seasonal interest for each plant to ensure you have color and interest all year.

NINEBARK (*Physocarpus opulifolius*)

AMBER JUBILEE™

Showy clusters of white flowers | Attractive deciduous orange foliage with yellow veins and tinges of lime green which emerges yellow in spring
Turns an outstanding deep purple in the fall

TINY WINE®

Foliage emerges wine-red and matures to a deep reddish-purple | Contrasting showy white flowers in spring | Interesting peeling bark

DAYLILY (*Hemerocallis* hybrid)

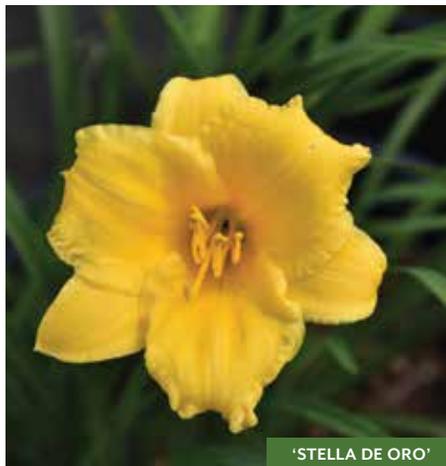

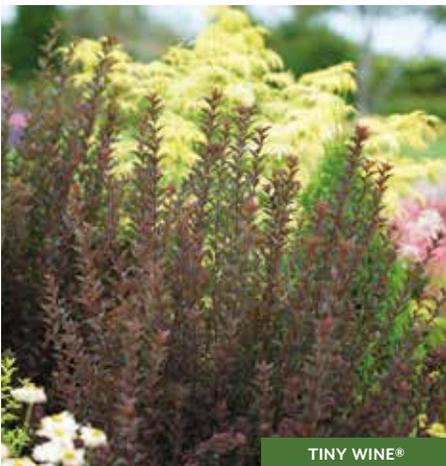

'STELLA DE ORO'

Early bloomer with a compact habit | Fragrant, rich golden yellow, ruffled flowers | Reblooming in the late summer months | Drought tolerant once established

HOSTA (*H.* hybrid)

'PATRIOT'

Lavender bell-shaped flowers rising above the foliage in mid-summer | Heart-shaped leaves remain dark green in color with distinctive white edges throughout the season

BORDERS

SPIREA (Spiraea hybrid)

DOUBLE PLAY DOOZIE®

Deep purple-red emerging foliage transitions to light green | Clusters of purple-red to pink blooms in spring that continue through summer | Reblooming | Seedless | Outstanding brick red fall color

SPIREA (Spiraea japonica)

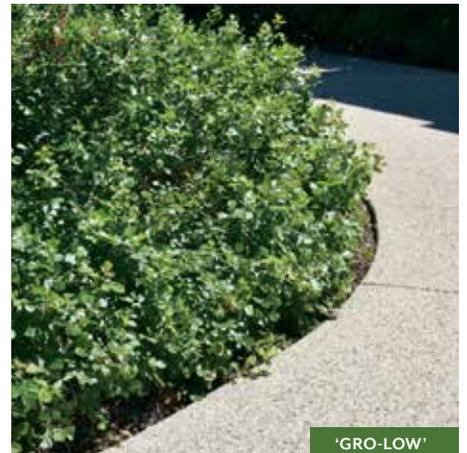

'MAGIC CARPET'

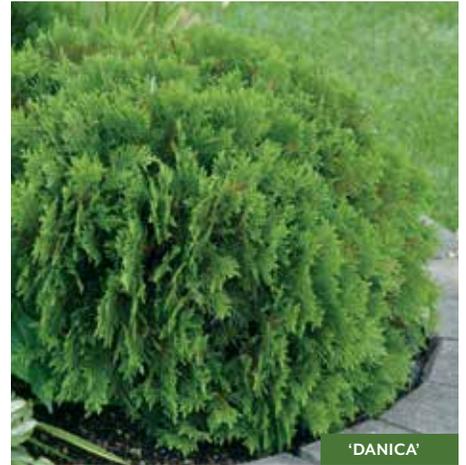

Foliage emerges bright red fading to yellow in summer | Showy flat-topped clusters of pink flowers in early summer | Deep red fall color

FRAGRANT SUMAC (Rhus aromatica)

'GRO-LOW'

Yellow flowers along the branches from early to mid-spring | Leaves turn an outstanding orange in the fall | Brick red fruits are held in clusters from late summer to late fall

ARBORVITAE (Thuja occidentalis)

Contributes shape, color, and texture to the garden
 Maintains their shape without pruning | Native to North America | Shade tolerant

FIRE CHIEF™

Distinctive evergreen | Showy, red-tipped green foliage which emerges red in spring | Tends to be more greenish-orange when shaded

'DANICA'

Truly dwarf globe-shaped evergreen shrub | Slow growing | Hardy and adaptable | Leaves remain emerald green throughout the winter

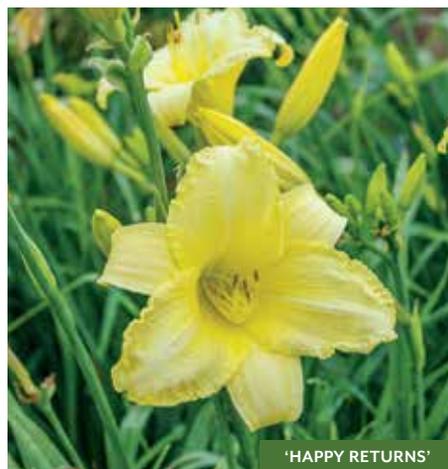

REBLOOMING DAYLILY (Hemerocallis hybrid)

'HAPPY RETURNS'

Features bold yellow trumpet-shaped flowers from late spring to late summer

'PARDON ME'

Fragrant, red flowers with bright green throat from early to late summer | Miniature, re-blooming | Salt tolerant | Rabbit resistant

BORDERS

WEIGELA (*W. florida*)

MIDNIGHT SUN®

Compact, bun-shaped weigela with glossy foliage
Blazing orange and red from summer into autumn
Pink spring flowers add a soft seasonal accent
Perfect for the front of the border
Low-maintenance, vibrant foliage standout

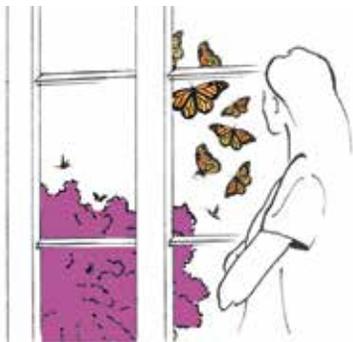

SPILLED WINE®

Low mounded variety with deep dark foliage that
doesn't fade to green | Hot pink trumpet-shaped
flowers attract hummingbirds in spring
Outstanding burgundy fall foliage

GLOBE ARBORVITAE (*Thuja occidentalis*)

MR. BOWLING BALL®

Dwarf evergreen shrub with unusual threadlike
sage-green foliage | Requires no pruning to maintain
rounded shape

Landscaping Tip:

Weigela attract hummingbirds and butterflies, so place them within view of a window so that you can enjoy the display whether indoors or out.

WEIGELA (*W. florida*)

WINE & ROSES®

Hot pink trumpet-shaped flowers along the branches in late spring | Attractive deep purple foliage throughout the season

'DARK HORSE'

Stunning clusters of pink trumpet-shaped flowers along the branches in late spring | Attractive dark green foliage edged in deep purple which emerges burgundy in spring | Attracts birds and butterflies

SMOOTH HYDRANGEA (*H. arborescens*)

INVINCIBELLE LIMETTA®

Dwarf, rounded selection features enormous lime green flower heads in early summer through mid-fall
Blooms fade to white over time and dry brown for winter interest

HEDGES

LIVING ARCHITECTURE FOR THE LANDSCAPE

Hedges are incredibly hardworking plants in the garden, serving the important purpose of providing privacy and defining spaces. This is especially crucial in areas where neighbors are close by. However, large spaces can also make use of hedges to separate different areas or make a bold statement.

Before we talk about plant options, let's clear up some hedge myths. First, hedges don't always have to be evergreen. Plants like 'Limelight' hydrangeas, forsythia, and viburnum can create beautiful flowering hedges. Second, hedges don't have to be perfectly trimmed. Some of the most attractive ones are left to grow naturally without pruning. Lastly, a hedge doesn't have to surround the entire yard. Just three or more shrubs from the following pages can be strategically placed to create a useful and effective hedge.

FORSYTHIA (F. hybrid)

SHOW OFF®

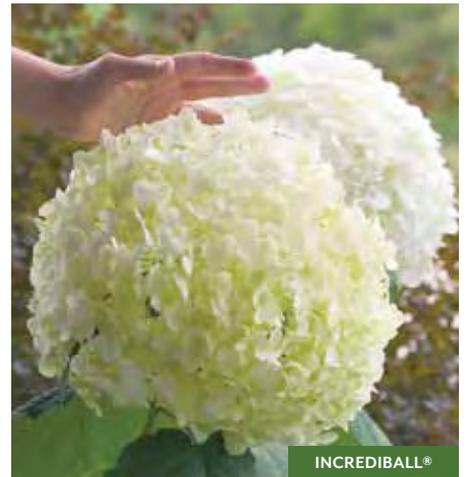

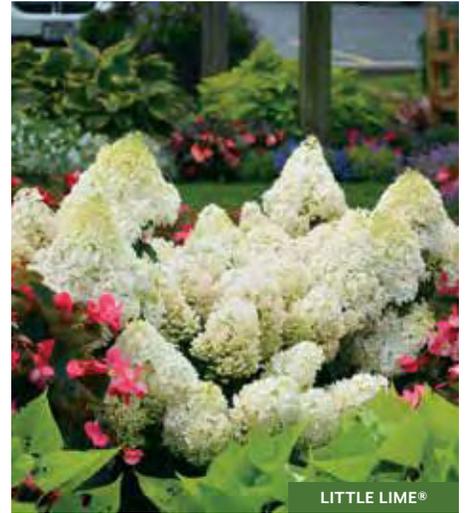

Brilliant yellow bell-shaped flowers in early spring along the branches | Flowers are excellent for cutting | Forest green foliage throughout the season

Lurvey Pro Tip:

Nothing beats a fresh-cut flower arrangement, but did you know most landscapes have everything you need to make your own beautiful arrangement. Look around your garden for blooms, colorful twigs, colorful foliage, and trailing vines to bring indoors.

HEDGES

PANICLE HYDRANGEA (*H. paniculata*)

INCREDIBALL®

Enormous white blooms all summer long on sturdy stems that won't flop over | Rock-solid reliability
Best when pruned to a few inches from the ground in early spring

LITTLE LIME®

Compact and smaller form of 'Limelight' | Large conical flower heads | Start chartreuse and changes to pink in the late-season | Pink color lasts into fall

'LIMELIGHT'

Large, conical lime-green flowers with white overtones in mid-summer | Fades to pink in fall
Excellent for cutting | Flowers dry brown for winter interest

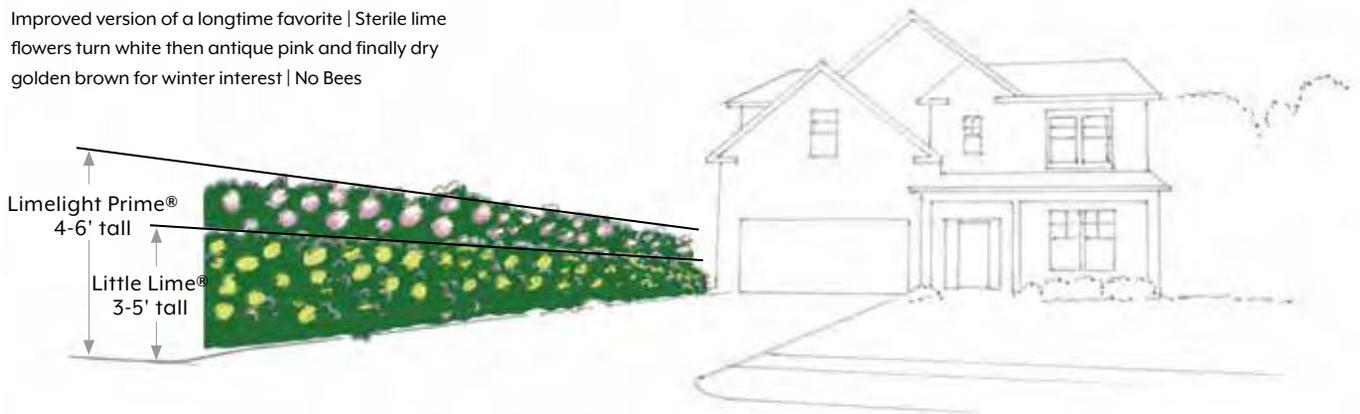

PANICLE HYDRANGEA (*H. paniculata*)

LIMELIGHT PRIME®

Improved version of a longtime favorite | Sterile lime flowers turn white then antique pink and finally dry golden brown for winter interest | No Bees

Landscaping Tip:

Limelight Prime® Hydrangea is even better as a flowering hedge than the original 'Limelight', thanks to its sturdier stems. It pairs beautifully with Little Lime® Hydrangea for a lushly layered yet low maintenance hedge.

HEDGES

MESERVE HOLLY (*Ilex x meserveae*)

'ROYAL FAMILY'

Self-pollinating combination of 'Blue Prince' & 'Blue Princess' | Berries emerge in fall and persist through winter | Evergreen

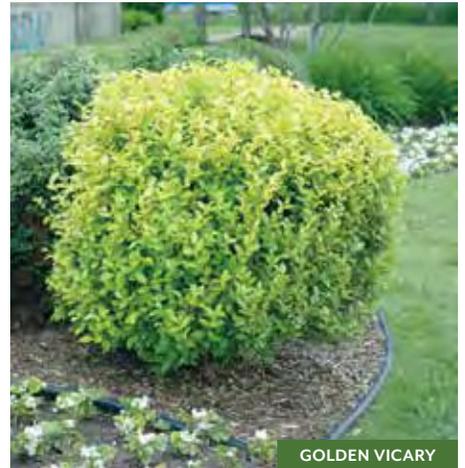

ARROWWOOD

VIBURNUM (*V. dentatum*)

ARROWWOOD

Stunning creamy white flat-top flowers at the ends of the branches in late spring | Bluish-black berries attractive to birds from early to late fall | Outstanding deep purple fall color

GOLDEN VICARY

PRIVET (*Ligustrum hybrid*)

GOLDEN VICARY

Common hedge shrub takes pruning exceptionally well | Colorful yellow foliage all season long | Needs full sun for best color

Landscaping Tip:

Privet got its name because it is so widely used to provide privacy around homes, particularly from the street. It can be trimmed into a formal shape or allowed to stay natural, depending on the look you are going for. If trimming, plan on doing so in late spring, after the new growth has emerged.

'SNOWMOUND'

SPIREA (*Spiraea nipponica*)

'SNOWMOUND'

Smothered in snow-white flowers in late spring held along gracefully arching branches

UPRIGHT YEW (*Taxus x media*)

'HICKS'

New growth emerges light green in spring | Evergreen foliage remains dark green throughout the winter
Takes pruning well | Grows well in shade

CHINESE JUNIPER (*Juniperus chinensis*)

'SPARTAN'

Tall evergreen shrub with sharp needle-like, deep green foliage | Interesting blue berries | Tall screen or hedge when planted in rows

'HICKS'

'SPARTAN'

HEDGES

ARBORVITAE (*Thuja occidentalis*)

'YELLOW RIBBON'

Golden yellow tipped foliage | Compact size evergreen for smaller landscapes

EMERALD GREEN

Narrow, upright evergreen with dense foliage held in vertical sprays remains bright green year-round
Hardy and adaptable | Takes pruning well

ARBORVITAE (*Thuja* hybrid)

'GREEN GIANT'

Upright evergreen that grows uniformly and is perfect for privacy or wind screening | Very resilient and resists ice and snow damage | Grows in almost any soil type

WEIGELA (*W. florida*)

WINE & ROSES®

Hot pink trumpet-shaped flowers along the branches in late spring | Attractive deep purple foliage throughout the season

'KARL FOERSTER'

'NORTHWIND'

REED GRASS (*Calamagrostis x acutiflora*)

'KARL FOERSTER'

Plumes of rose flowers above the foliage in mid-summer | Ornamental seed heads on showy plumes from late summer to late winter | Grassy green leaves turn tan in fall

SWITCH GRASS (*Panicum virgatum*)

'NORTHWIND'

Blue-green foliage with relatively fine texture | Great vertical habit | Brick-red seed heads on showy plumes from late summer to mid-fall | Foliage turns a gorgeous gold in fall

'BRILLIANTISSIMA'

'PURPLE PILLAR'

'SUNJOY GOLD PILLAR' BARBERRY

SPACE-SAVING HEDGES

These plants naturally grow with an upright and narrow habit that makes them perfect for using as a hedge where you can't afford to give up a lot of ground space.

BARBERRY (*Berberis thunbergii*)

SUNJOY GOLD PILLAR® BARBERRY

Upright, columnar barberry ideal for adding vertical structure and bright color | Orange-red new growth matures to vivid gold | Striking orange-red fall color | Excellent as a hedge, edging, or standout specimen in the landscape

CHOKEBERRY (*Aronia arbutifolia*)

'BRILLIANTISSIMA'

Fiery red-orange fall color | White spring flowers followed by bright red berries that persist through winter | Upright, adaptable native shrub | Cold hardy and drought tolerant | Excellent wildlife value

ROSE OF SHARON (*Hibiscus* hybrid)

PURPLE PILLAR®

Naturally grows as a narrow column | Semi-double, purple blooms pack stems in summer | Continuous bloomer

Lurvey Pro Tip:

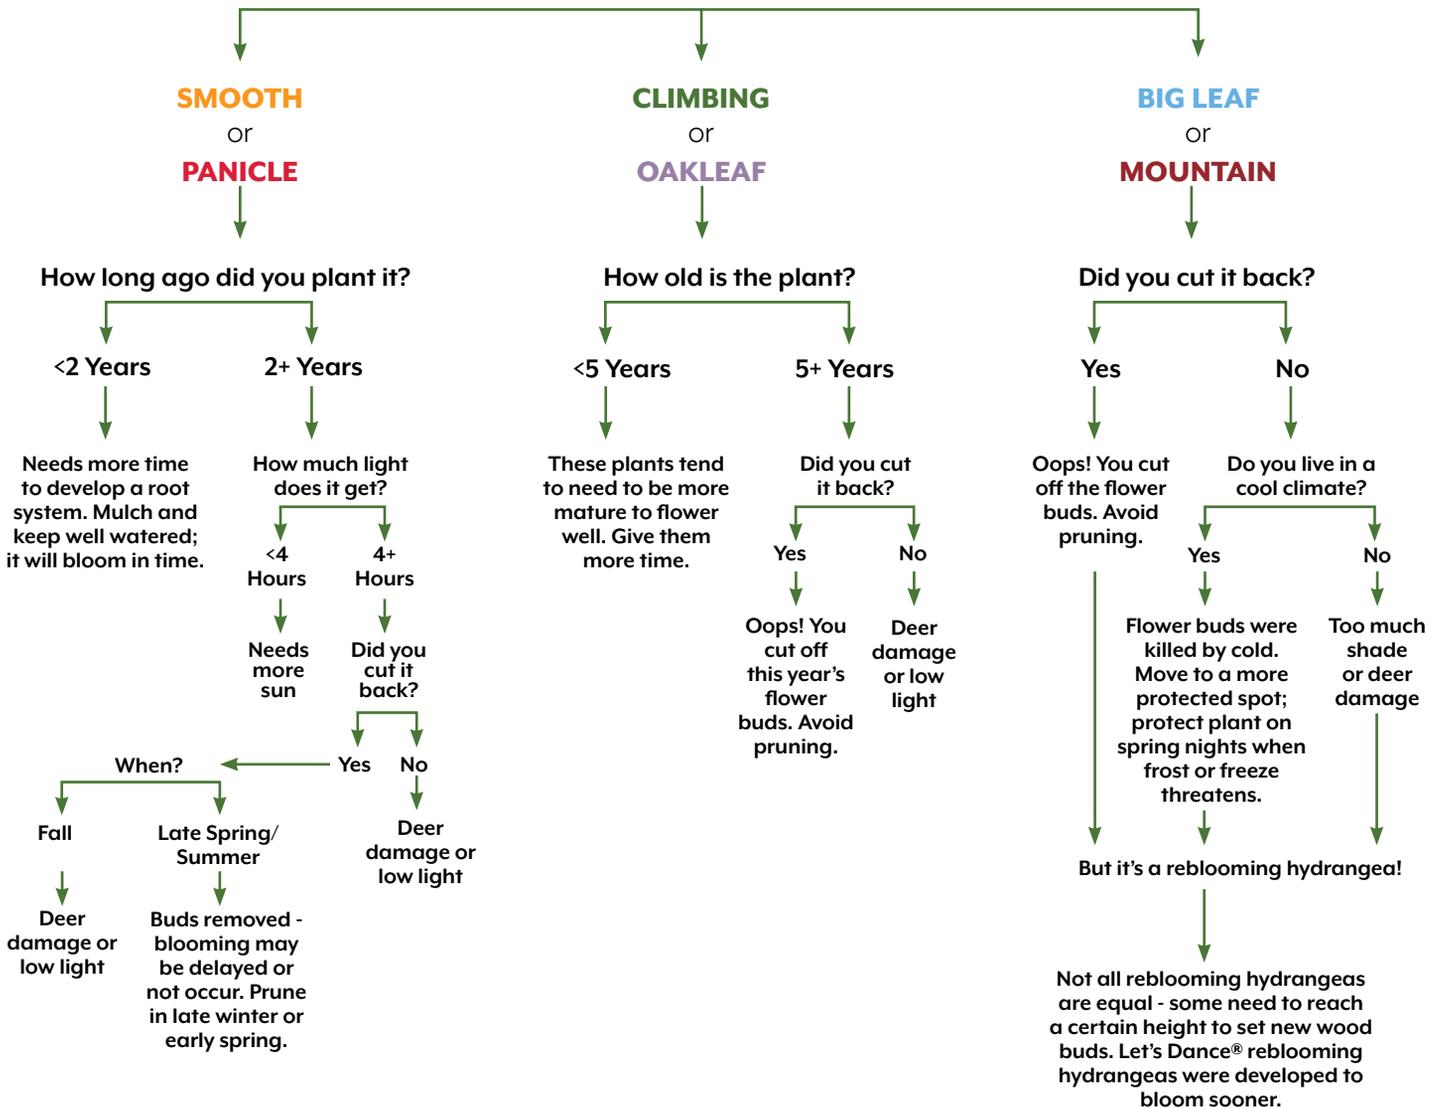

Ornamental grasses in the landscape have exploded in recent years. These beautiful additions need little care but will need to be cut back yearly.

HAVE NO FEAR **HYDRANGEAS**

Why Isn't My Hydrangea Blooming?

Which hydrangea do you grow?

Our Have No Fear Hydrangeas

With more than 50 hydrangea species found worldwide, it's easy to feel overwhelmed when choosing the right one. Fortunately, all hydrangeas fall into just six main types. Below, we've highlighted Lurvey's favorite hydrangea selection for six types, each chosen to help you cast aside your hydrangea fears and grow more successfully.

SMOOTH

Hydrangea arborescens 'Annabelle'
'Annabelle' Hydrangea

PANICLE

Hydrangea paniculata 'Jane'
Little Lime® Hydrangea

CLIMBING

Hydrangea anomala 'var. petiolaris'
Climbing Hydrangea

OAKLEAF

Hydrangea quercifolia 'Alice'
'Alice' Oakleaf Hydrangea

BIG LEAF

Hydrangea macrophylla Summer Crush®
Summer Crush® Hydrangea

MOUNTAIN

Hydrangea serrata 'MAKD'
Tiny Tuff Stuff™ Hydrangea

GROWING TIPS FOR SUCCESS

- Plant in moist but well-drained soil (hydrangeas will not tolerate wet feet - ever!) It's a myth that hydrangeas require acidic soil; they actually tolerate a wide range of pH levels, from acidic to slightly alkaline.
- Some sun each day is ideal. Most people think of hydrangeas as shade plants, but they look and flower best with at least four hours of sun, ideally in the morning. Panicle hydrangeas are the most sun tolerant and can take full sun in northern climates.
- Provide plenty of water, especially as they are getting established. Hydrangeas have shallow roots, so they dry out quickly. A two to three inch layer of shredded bark mulch is a useful addition to any hydrangea planting.

LOW HEDGE & EDGING

SMALL STRUCTURES CAN GENERATE BIG DESIGN FEATURES

INVINCIBELLE LIMETTA®

Low hedges are a refined way to define space in a landscape. They are smaller than regular privacy hedges and are commonly used to separate different areas like planting beds, patios, and other elements in the landscape. Unlike large screens or fences, low hedges offer a softer visual barrier between backyards. On the other hand, edging plants are smaller in size and are typically used to prevent turfgrass from spreading into surrounding plantings. They also help mark boundaries between paths, planting beds, and other landscape features. Both low hedges and edging plants create clean lines that bring consistency and simplicity to a well-designed landscape. The shrub suggestions on the following pages are all under 5 feet tall and can either stand alone or be mixed with other plants.

WEIGELA (*W. florida*)

MY MONET PURPLE EFFECT®

Bright red berries fall through winter | Dense, dark blue-green foliage on blue-purple stems | Tolerates shearing well | Long lasting ornamental fruit

CHOKEBERRY (*Aronia melanocarpa*)

LOW SCAPE® MOUND

Compact, low mounded variety with glossy dark green leaves | Showy white flowers in spring | Brilliant red fall foliage contrasts the dark purple-black fruit
Very adaptable

SMOOTH HYDRANGEA (*H. arborescens*)

INVINCIBELLE LIMETTA®

Dwarf, rounded selection | Enormous lime green flower heads in early summer through mid-fall
Blooms fade to white over time and dry brown for winter interest

BARBERRY (*Berberis thunbergii*)

'GOLDEN NUGGET'

Compact habit of growth and ravishing tiny golden leaves that retain their color all season | Outstanding orange fall color

LOW HEDGE & EDGING

BUTTERFLY BUSH (Buddleia sp.)

PUGSTER® SERIES

Dwarf plants with huge flowers | Very fragrant
and long blooming | Deer resistant

PUGSTER® AMETHYST

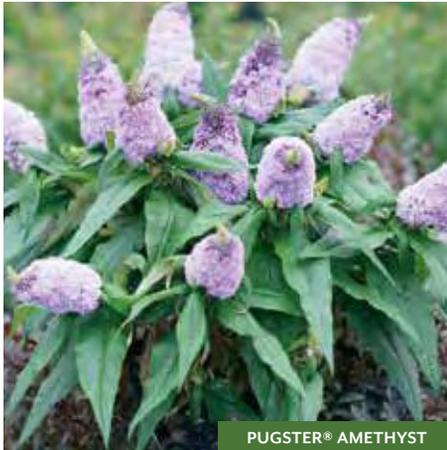

PUGSTER® BLUE

PUGSTER® PINK

LUNGWORT (Pulmonaria hybrid)

'SHRIMPS ON THE BARBIE'

Large, deep shrimp pink flowers in the spring
Foliage is green with prominent white spots | Deer,
rabbit, and mildew resistant

PUGSTER® BLUE

BOXWOOD (Buxus hybrid)

‘GREEN MOUNTAIN’

Compact, broadleaf evergreen with a pyramidal shape | Great accent hedge or garden detail plant
Very hardy

‘GREEN VELVET’

Broadly mounded, broadleaf evergreen that takes pruning exceptionally well | Very versatile in the Landscape

LADY’S MANTLE (Alchemilla mollis)

LADY’S MANTLE

Subtle chartreuse flowers at the ends of the stems from early to mid-summer | Crinkled round leaves with scalloped edges remain lime green throughout the season | Dense perennial with a mounded form

‘GREEN MOUNTAIN’

LADY’S MANTLE

‘GREEN VELVET’

Lurvey Pro Tip:

Protect your boxwood from drying winter winds. Damage typically occurs in our area when the ground is frozen and winter winds blow across the foliage. Unfortunately, this causes leaves to transpire moisture and not be able to replenish water from the frozen ground. You can protect evergreens by giving them a deep watering just prior to the ground freezing and either wrapping them in burlap or using an anti-transpirant spray in late fall.

LOW HEDGE & EDGING

LITTLE LIME®

PANICLE HYDRANGEA (*H. paniculata*)

LITTLE LIME®

This compact shrub is a smaller form of 'Limelight'
Large conical flower heads that start chartreuse and
change to pink in the cooler, late-season weather
Blooms last into fall

FALSE SPIREA (*Sorbaria sorbifolia*)

'SEM'

Compact rounded shrub | Foliage emerges with rich
shades of pink and red fading to a cheery chartreuse
with rich autumn tones | Showy white plumes of
flowers in summer | Outstanding coppery-bronze
fall color

SHRUB ROSE (*Rosa hybrid*)

OSO EASY® DOUBLE PINK

Lovely hot pink blooms from late spring through frost
Resistant to black spot and mildew | Heat tolerant
Spreading shrub rose

LURVEY
FAVORITE

'SEM'

OSO EASY® DOUBLE PINK

MESERVAE HOLLY (*Ilex meserveae*)

EMERALD MAGIC®

Male selection which does not produce fruit | One of the hardiest evergreen hollies | Spiny blue-green foliage that turns burgundy in late fall and winter
Pollinator for other female holly

EMERALD MAGIC®

WEIGELA (*W. florida*)

SPILLED WINE®

Low mounded variety with deep dark foliage that doesn't fade to green | Hot pink trumpet-shaped flowers attract hummingbirds in spring
Outstanding burgundy fall foliage

SPILLED WINE®

SPREADING YEW (*Taxus x media*)

TAUNTON'S

Versatile evergreen shrub with a densely compact, spreading habit | Dark green summer foliage
Tolerates pruning and shade well | Resistant to winter burn

TAUNTON'S

'CHANTILLY LACE'

LURVEY FAVORITE

'ALL GOLD'

GOATSBEARD (*Aruncus* hybrid)

'CHANTILLY LACE'

A part-shade loving selection that produces lovely sprays of lacy, butter-cream flowers | Deer resistant and drought tolerant

HAKONE GRASS (*Hakonechloa macra*)

'ALL GOLD'

Dense herbaceous perennial grass with shapely form and gracefully arching stems | Attractive grassy leaves are gold in color

LOW HEDGE & EDGING

AZALEA (Rhododendron hybrid)

'ROSEBUD'

Lovely pink buds unfurl to reveal double pink blooms with rich red centers that cover this azalea in mid-spring | Glossy narrow leaves turn an outstanding yellow in the fall

'STEWARTSONIAN'

Abundant hot red flowers in spring over glossy dark green semi-evergreen foliage

RHODODENDRON (R. hybrid)

'PJM'

Evergreen shrub with showy purple-pink flowers in spring and a compact upright habit

Lurvey Pro Tip:

Winter winds can be very drying to evergreen plants. Utilize anti-desiccant or anti-transpirants to help your broadleaf evergreens, like azaleas and boxwood, retain their moisture throughout the winter.

'KAREN'

'DELAWARE VALLEY WHITE'

KOREAN

AZALEA (Rhododendron hybrid)

'KAREN'

Stunning variety with clusters of bright lavender-pink blooms | Hardy and dense compact shrub
Evergreen

'DELAWARE VALLEY WHITE'

Dense clusters of snow-white blooms, some semi or double, cover this azalea in mid to late spring

KOREAN AZALEA (Rhododendron yedoense)

KOREAN

Lavender to rose-purple flowers in spring | Orange-red foliage in autumn | Evergreen during mild winters

Did you know?

Botanically speaking, all azaleas are Rhododendron, but not all Rhododendron are azaleas. The plants that we consider proper rhododendrons have large, leathery evergreen foliage and flowers typically borne in orb-like clusters. Azaleas are typically smaller in overall size, foliage may be evergreen or deciduous and have loose clusters of 3-5 flowers.

LOW HEDGE & EDGING

SMOOTH HYDRANGEA (*H. arborescens*)

FLOWERFULL®

Bold, showy blooms held on strong, upright stems
Produces two to three times more flowers than
typical smooth hydrangeas | Compact, well-
branched habit at three to four feet tall | Ideal
focal point for small or large landscapes | Reliable,
season-long garden impact

ALPINE CURRANT (*Ribes alpinum*)

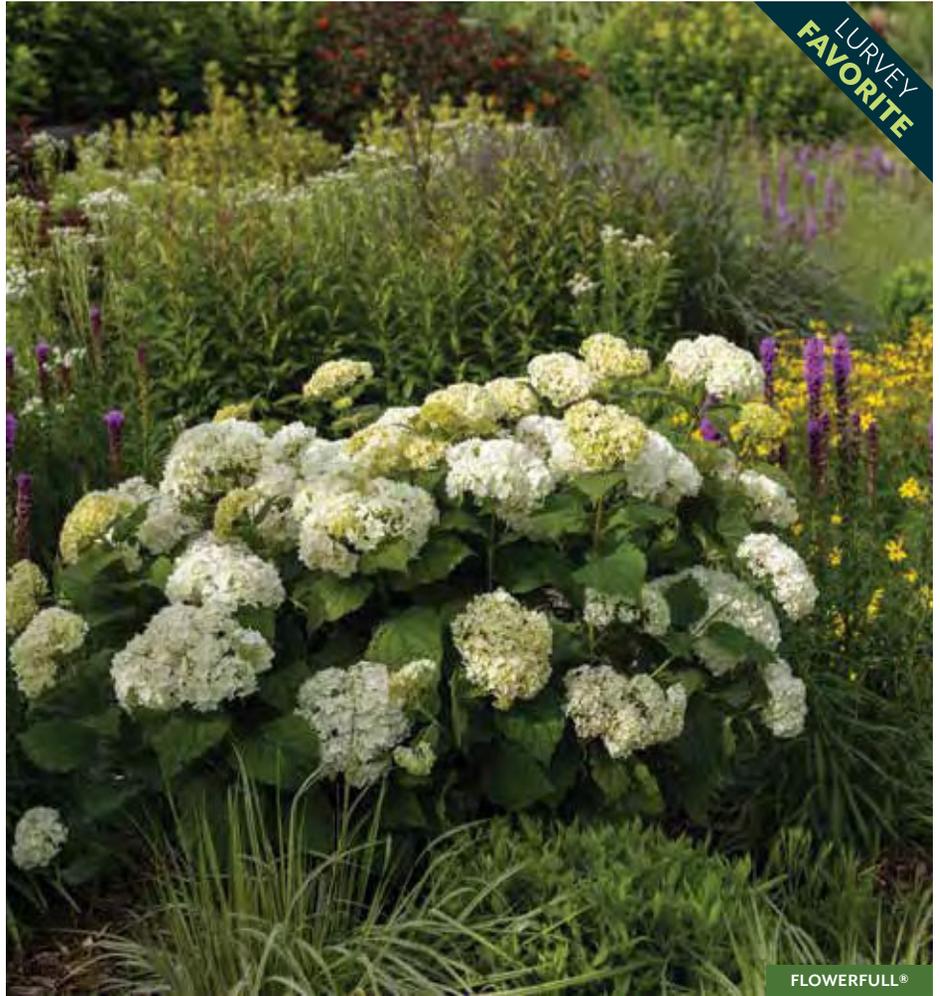

'GREEN MOUND'

Compact and upright, densely branched shrub with
leaves to the ground | Excellent low formal border
Takes pruning extremely well | Tough and adaptable
Yellow fall color

NINEBARK (*Physocarpus opulifolius*)

GINGER WINE®

Easy care, native flowering shrubs | Spring foliage
emerges a sunny orange color and matures to
sparkling burgundy | White flowers cover the plant in
late spring

SPIREA (*Spiraea* hybrid)

DOUBLE PLAY DOOZIE®

Deep purple-red emerging foliage transitions to light green | Clusters of purple-red to pink blooms in spring that continue through summer | Reblooming Seedless | Outstanding brick red fall color

BIRCHLEAF SPIREA (*Spiraea betulifolia*)

'TOR'

Tiny white flowers appearing atop a compact, rounded shrub | Fall color is a showy mix of red, yellow, and copper

SPREADING YEW (*Taxus x media*)

'DENSE'

An ideal landscape shrub with a dense, wide-spreading habit | Bright green emerging foliage turns dark green in summer | Takes pruning very well | Does well in dense shade

GROUNDCOVER ROSE (*Rosa* hybrid)

RED DRIFT®

Blanket of deep green foliage punctuated with multiple bright red blooms late spring through frost | Ground-hugging habit of growth | Easy to grow

CLIMBERS

DEVELOP VERTICAL SPACE IN THE LANDSCAPE

Climbing plants have the amazing ability to completely transform and soften tough or unattractive surfaces, all while providing a textured backdrop for other plants. Don't limit yourself to just walls; let climbing plants adorn fences, pergolas, arbors, and railings with their stunning living colors!

CLEMATIS (C. hybrid)

KILIAN DONAHUE

Striking clematis with blooms shifting from deep ruby red to brilliant fuchsia and lavender with orchid-pink highlights | Outstanding rebloomer with a full, branching habit | Ideal for arbors, fences, and trellises | Creates dramatic, season-long color in the garden

SWEET AUTUMN

Dainty, star-like creamy white flowers are sweetly scented and completely cover this vigorous vine late in the season

JACKMAN

Endless waves of rich velvet-blue flowers throughout the season | Tough, hardy and thrives on neglect

SAPPHIRE INDIGO™

Prolific sapphire-blue blooms from summer to early fall | Easy to train onto low fences or small arbors | Plant to cascade down small slopes or dangle off retaining walls like a groundcover

KILIAN DONAHUE

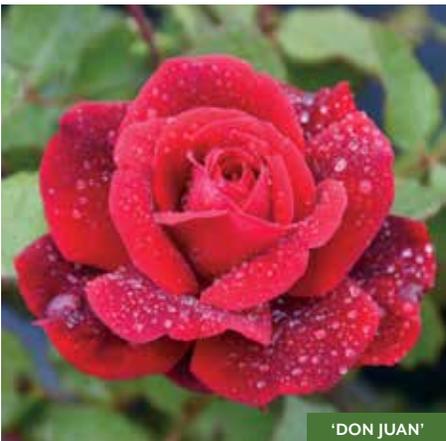

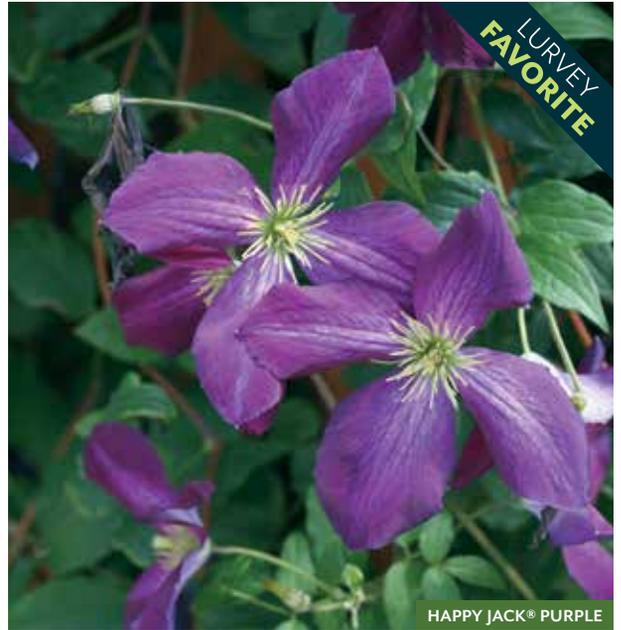

SWEET AUTUMN

JACKMAN

SAPPHIRE INDIGO™

CLIMBING ROSE (Rosa hybrid)

'ZEPHIRINE DROUHIN'

Wonderfully scented, deep rose-pink blooms | Flowers freely and almost continuously | Virtually thornless

'DON JUAN'

Stunning double red blooms with an intoxicating fragrance | Bushy, well branched climber | Blooms in flushes throughout the season

CLEMATIS (C. hybrid)

HAPPY JACK® PURPLE

Free flowering variety with velvety plum-purple blooms from mid-summer into fall

JOLLY GOOD™

Easy-to-grow clematis covered in abundant light purple flowers with magenta undertones | Long blooming | Creamy white stamens add soft contrast | Compact Jackmanii hybrid ideal for fences and trellises | Vigorous yet refined growth habit | Blooms on new wood for simple spring pruning

CLIMBERS

HONEYSUCKLE (*Lonicera* hybrid)

'GOLDFLAME' (*L. x heckrottii*)

Purple to deep-pink buds open to sweetly fragrant, golden-yellow, tubular flowers throughout summer
Excellent for trellis, arbors, or fencing | Can be pruned into a dense shrub if preferred

'SCENTSATION' (*L. periclymenum*)

Native, non-invasive honeysuckle | Fruit-scented yellow and cream flower clusters that bloom over a long period | Deer resistant

'MAJOR WHEELER' (*L. sempervirens*)

Bright coral red tubular flowers with orange throats all season | Easy to grow

BOSTON IVY (*Parthenocissus tricuspidata*)

BOSTON IVY

Very attractive dark green, three-lobed leaves turn orange and red in fall | Small dark blue berries
Self-clinging | Very tough and adaptable | Vigorous

'FLAVA'

TRUMPET VINE (*Campsis radicans*)

'FLAVA'

Very vigorous vine | Grow tens of feet in a year
 Beautiful sulfur-yellow trumpet-shaped flowers in summer | Attractive to hummingbirds

WISTERIA (*W. macrostachya*)

'AMETHYST FALLS'

Cascading clusters of lavender-purple flowers
 Fragrant, long-blooming spring display | Vigorous, compact vine ideal for trellises and containers
 Adaptable and low-maintenance

WISTERIA (*W. macrostachya*)

'BLUE MOON'

Highly tolerant to cold and features stunning chains of lavender flowers blooming three times a year
 Can grow quite woody, needs ample support and full sun

HYDRANGEA (*H. anomala* v. *petiolaris*)

CLIMBING HYDRANGEA

Attractive, fragrant white lacecap-like flowers in mid-summer | Self-clinging vine | Mature plants develop woody growth and require solid support
 Glossy green, heart-shaped leaves

'BLUE MOON'

'AMETHYST FALLS'

CLIMBING HYDRANGEA

Did you know?
 Growing up, rather than out is a great way to create dimension in your landscape. Consider incorporating a trellis, arbor, or pergola.

FRAGRANCE

ACTIVATE ALL SEVEN SENSES IN THE GARDEN

LURVEY
FAVORITE

KETCHUP & MUSTARD™

It's always a good idea to have a fragrant plant in your landscape. They come in all shapes and sizes, making it easy to incorporate them into any design. Pick a few from the list below and place them near a window, doorway, or patio. That way, you can enjoy their delightful scent all season long.

SHRUB ROSE (Rosa hybrid)

KETCHUP & MUSTARD™

Vivid bicolor blooms with brightest red over deep yellow held atop glossy green foliage
Long-lasting flowers drop cleanly as new blooms appear | Neat, rounded habit perfect for landscapes, containers, or topping a rose tree | Best flower size in cooler conditions
Bold, beautiful, and continuously eye-catching all season long

'BLUE WONDER'

CATMINT (Nepeta x faassenii)

'BLUE WONDER'

Masses of lightly-scented royal blue spiked flowers from late spring to early fall | Fragrant grayish green foliage | Shear spent blooms to promote re-bloom
Attracts pollinators | Deer resistant

SWEETSHRUB (Calycanthus hybrid)

'APHRODITE'

Fragrant red spider-like flowers with dark red eyes and a buttery yellow ring from mid-summer to early fall | Outstanding gold fall color

'APHRODITE'

FRAGRANCE

ORIENTAL LILY (*Lilium hybrid*)

'STARGAZER'

Boldly fragrant | Crimson trumpet-shaped flowers with pink over tones, white throats and edges at the ends of the stems in late summer

SWEETSPIRE (*Itea virginica*)

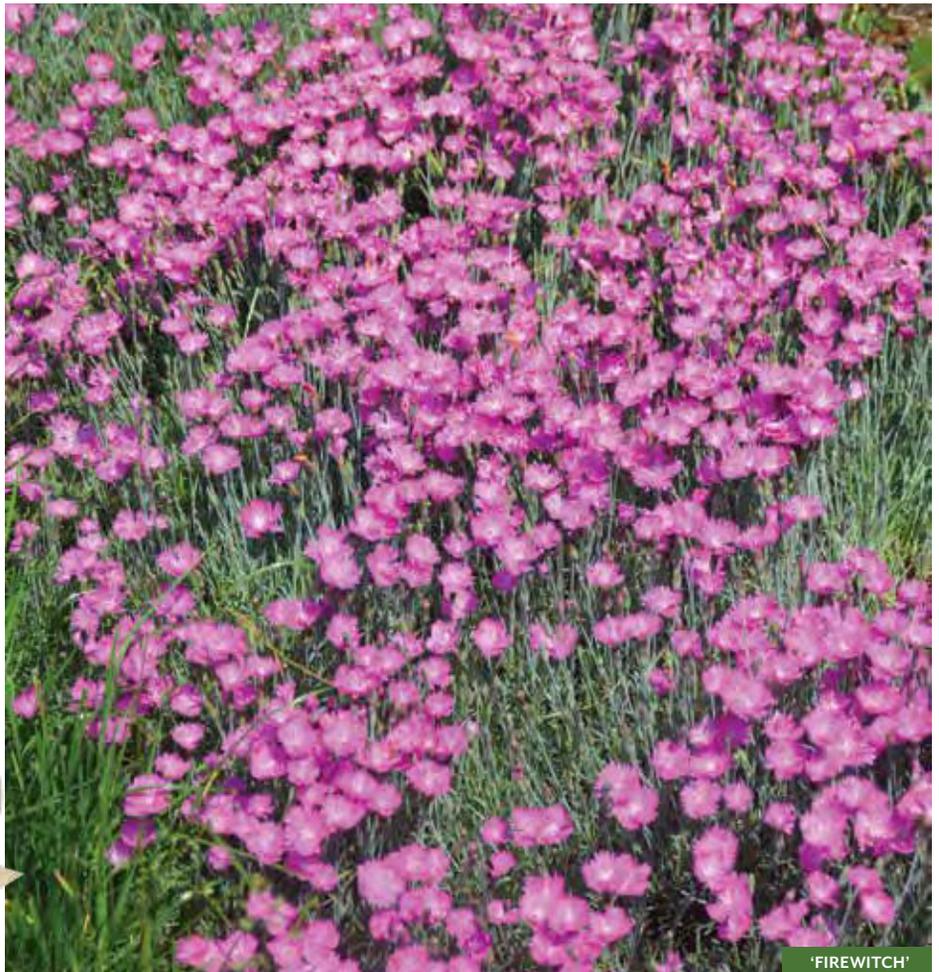

LITTLE HENRY®

Fragrant white flowers at the ends of the branches in early summer | Outstanding burgundy in the fall

CHEDDAR PINK (*Dianthus gratianopolitanus*)

'FIREWITCH'

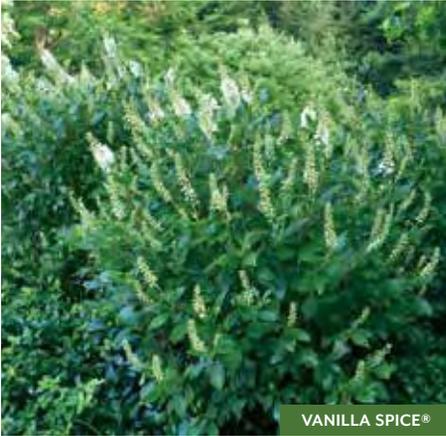

A robust variety bearing single, fuchsia flowers in late spring to early summer | Cushion of blue-green, grass-like leaves | Mild, clove-like, spicy fragrance

Lurvey Pro Tip:

Getting pollen on your clothes is par for the course in gardening. Don't brush the pollen off your clothing, instead try using tape to pull off the pollen and avoid the stain!

VANILLA SPICE®

'RUBY SPICE'

'DAVID'

'KARL ROSENFELD'

PEONY (*Paeonia* hybrid)

'KARL ROSENFELD'

Bold lightly-scented fuchsia flowers from late spring to early summer | Excellent for cutting | Foliage remains green throughout the season

SUMMERSWEET (*Clethra alnifolia*)

VANILLA SPICE®

Extra-large vanilla scented summer blooms | Shade tolerant Native shrub | Excellent yellow fall color

'RUBY SPICE'

One of the most fragrant of all garden shrubs with showy spikes of sweetly scented deep pink flowers bloom in late summer | Outstanding harvest gold fall color

GARDEN PHLOX (*P. paniculata*)

'DAVID'

Fragrant conical white star-shaped flowers from early summer to early fall | Flowers are excellent for cutting

FRAGRANCE

LILAC (*Syringa*)

'MISS KIM' (*S. patula*)

Showy, fragrant panicles of light lavender-pink flowers in spring | Crinkled, dark green summer foliage | Deep purple fall color

DWARF KOREAN (*S. meyeri*)

Spikes of fragrant lilac-pink flowers in late spring
Dark green foliage

REBLOOMING LILAC (*Syringa* hybrid)

BLOOMERANG® DARK PURPLE

Dwarf hybrid with large dark purple buds in mid spring | Buds open to deep purple-lilac colored, fragrant flowers | Will bloom again in mid to late summer and continuing through frost | Deer resistant

KOREANSPICE

VIBURNUM (*V. carlesii*)
Deliciously fragrant flowers in spring

KOREANSPICE

One of the most fragrant of all shrubs | Intoxicatingly sweet-smelling ball-shaped clusters of pinkish-white flowers in early spring | Outstanding shades of red and burgundy in the fall | Black fruits

COMPACT KOREANSPICE

A smaller and dense mounded shrub with small intoxicatingly fragrant white flowers | Blue berries in summer

VIBURNUM (*V. hybrid*)

JUDD

Showy clusters of fragrant white flowers in early spring | Dark green summer foliage turns an outstanding deep purple in fall

'MISS KIM'

Landscaping Tip:

Plant fragrant flowering shrubs near a window or doorway so that the scent can waft into your home with the breeze.

JUDD

COMPACT KOREANSPICE

FRAGRANCE

LAVENDER (*Lavandula angustifolia*)

'MUNSTEAD'

Masses of beautiful spikes of fragrant purple flowers from early to late summer | Excellent for cut flowers
Attractive grayish green fragrant foliage that turns coppery-bronze in fall

MAGNOLIA (*M. stellata*)

'ROYAL STAR'

Fragrant star-shaped snow-white flowers in early spring | Compact, upright, fast growing | Coppery-bronze fall color

SHRUB ROSE (*Rosa hybrid*)

JULIA CHILD™

Stunning, fragrant buttery-yellow flowers from late spring to early fall | Perfectly rounded habit
Superior glossy leaves and great disease resistance
Exceptional shrub rose

Did you know?

Many of the hybrid roses have been developed for their flowers and disease resistance, but not for fragrance. If you're looking for a rose that has it all consider varieties like Ketchup & Mustard™ and Julia Child™.

'CHARLES JOLY'

BEAUTY OF MOSCOW

ROSY RETURNS

'PRESIDENT GREVY'

COMMON LILAC (*Syringa vulgaris*)

'PRESIDENT GREVY'

Spring blooming French hybrid features exquisitely scented double blue flowers in upright panicles

'CHARLES JOLY'

Fragrant double purple-red flowers in upright panicles | Ideal for screening

BEAUTY OF MOSCOW

One of the most fragrant of all garden shrubs | Showy spikes of sweetly scented deep pink flowers in late summer

REBLOOMING DAYLILY (*Hemerocallis* hybrid)

ROSY RETURNS

Exceptionally long-blooming daylily with rose-pink flowers and deep rose eyes | Bright yellow throats and softly ruffled petals | Fragrant blooms | Attracts bees, butterflies, and hummingbirds | A vibrant, wildlife-friendly garden standout

Lurvey Pro Tip:

Don't throw your plant tags away after planting, they are a great resource for the future! It's the best way to remember what you planted in case you want to add to your garden or need to replace a plant.

SEASON LONG FRAGRANCE

Design

Smelling flowers is one of the purest joys of gardening. Embrace it with this garden. It is filled with a variety of gorgeous, fragrance-filled blooms.

Enjoy a variety of scents and sensations with this perfect blend of plants. Beginning in spring, you'll be greeted by an abundance of sweet and spicy fragrances emanating from the tallest and smallest plants alike. Flowers in cheery pinks and purples exuberantly announce the start of the growing season and get our minds churning with possibility. The summer show is just the same, keeping up the high intensity of color and fragrance, reblooming up until fall. For gardeners hoping to experience their spaces with both their eyes and their nose, this is the perfect blend of plants.

GROUNDCOVERS

A LUSH ALTERNATIVE TO MULCH

YUKI CHERRY BLOSSOM®

Groundcovers are amazing plants that are able to spread and cover the ground. They not only help in suppressing weed growth but also play a crucial role in preventing soil erosion. While Pachysandra and Vinca are commonly known among gardeners, there are numerous other resilient and low-maintenance shrubs and perennials that can serve this purpose as well. Don't forget to consider these fantastic plants when choosing groundcovers for your landscape.

'BURGUNDY GLOW'

'GREEN CARPET'

DEUTZIA (D. hybrid)

YUKI CHERRY BLOSSOM®

Smothered in bell-shaped blooms of pink or white in spring | Purple fall color | Very tough and durable
Deer resistant

BUGLEWEED (Ajuga reptans)

'BURGUNDY GLOW'

Dense, herbaceous evergreen perennial with a ground-hugging habit | Small crinkled round leaves emerge dark brown in spring then turn emerald-green with showy creamy-white variegation with tinges of purple

JAPANESE SPURGE (Pachysandra terminals)

'GREEN CARPET'

A popular evergreen groundcover | Exceptional performance in deep shade | Interesting white flowers in spring

'COLORATUS'

'DART'S BLUE'

EUONYMUS (E. fortunei)

'COLORATUS'

Groundcover or climbing vine with shiny green evergreen foliage that turns a beautiful purple in winter

PERIWINKLE (Vinca minor)

'DART'S BLUE'

Herbaceous evergreen perennial with masses of beautiful blue flowers with white eyes in mid-spring to early summer | Dark green summer foliage
Grows best in partial shade

CREeping PHLOX (P. subulata)

'EMERALD BLUE'

Stunning lavender star-shaped flowers from early to late spring | Needle-like, emerald-green foliage year-round | Ground-hugging habit | Best show when planted in masses

'EMERALD BLUE'

RUSSIAN STONECROP

STONECROP (Sedum kamtschaticum)

RUSSIAN STONECROP

Stunning yellow star-shaped flowers with orange eyes from early to mid-summer | Drought tolerant
Dense semi-evergreen herbaceous perennial

Lurvey Pro Tip:

Not sure how many plants you need for your garden space? Our Planting Cheat Sheet is the perfect tool to help you determine your needs.

GROUNDCOVERS

CHOKEBERRY (*Aronia melanocarpa*)

LOW SCAPE® MOUND

Compact, low mounded variety with glossy dark green leaves | Showy white flowers in spring | Brilliant red fall foliage contrasts the dark purple-black fruit
Very adaptable

FRAGRANT SUMAC (*Rhus aromatica*)

'GRO-LOW'

Yellow flowers along the branches from early to mid-spring | Leaves turn an outstanding orange in the fall
Brick red fruits are held in clusters from late summer to late fall

CREeping THYME (*Thymus praecox*)

'PINK CHINTZ'

Dense low mat completely covered in lovely pink flowers | Fragrant foliage the rest of the season
Needs a dry and sunny location

GROUNDcover ROSE (*Rosa hybrid*)

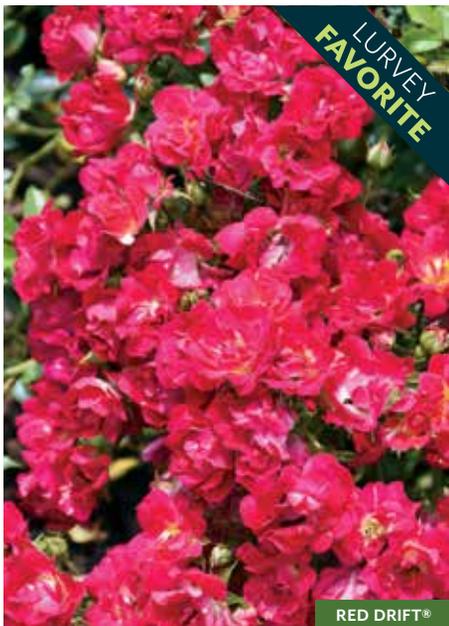

RED DRIFT®

Blanket of deep green foliage punctuated with multiple bright red blooms late spring through frost
Ground-hugging habit of growth | Easy to grow

WINTERCREEPER (*Euonymus fortunei*)

'EMERALD GAIEITY'

Pronounced white-variegated green leaves
Color accent for almost any screening application
Evergreen

WEIGELA (*W. florida*)

SPILED WINE®

Low mounded variety with deep dark foliage that doesn't fade to green | Hot pink trumpet-shaped flowers attract hummingbirds in spring | Outstanding burgundy fall foliage

SPREADING JUNIPER (*Juniperus chinensis*)

'KALLAY'S COMPACT'

A very horizontal and compact form of Pfitzer Juniper
Richly green and extremely soft foliage | Evergreen

DWARF JAPANESE GARDEN

Dense mound of ground-hugging branches | Bright
green new growth turns blue-green | Winter color
has purple tinge | Evergreen

'DAUB'S FROSTED'

Attractive blue-green, evergreen foliage that emerges
with a yellowish tint on pendulous branch tips

LILYTURF (*Liriope muscari*)

'SILVERY SUNPROOF'

Tufted grass like perennial that features a clump of
arching, glossy, dark green and gold striped leaves
Powdery lilac-blue flower spikes in late summer

HOSTA (*H. hybrid*)

'FRANCEE'

Dainty spikes of lilac-purple bell-shaped flowers
rising above the foliage in mid-summer | White
variegated leaves

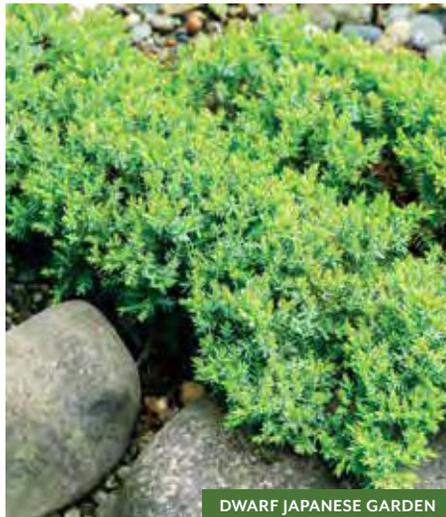

SPOTTED DEAD NETTLE (*Lamium maculatum*)

'PINK PEWTER'

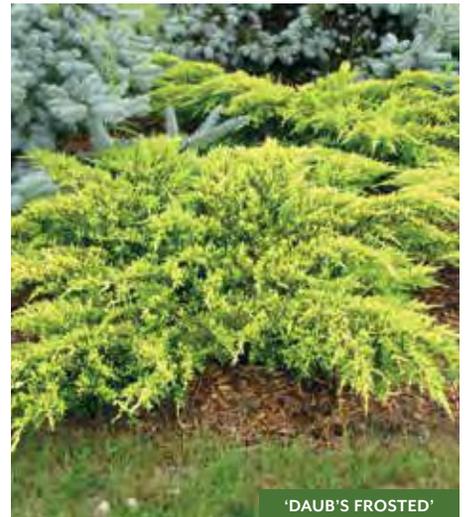

Pewter-silver leaves with dark green edges | Short
spiked pink flowers that bloom from May through
September

'KALLAY'S COMPACT'

DWARF JAPANESE GARDEN

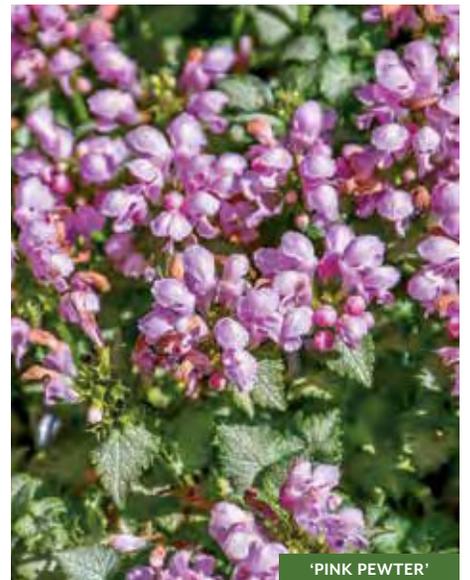

'DAUB'S FROSTED'

'SILVERY SUNPROOF'

'FRANCEE'

'PINK PEWTER'

FRUITS & BERRIES

RAISE AND PROVIDE FOR YOU AND YOUR FAMILY

'PATRIOT'

RASPBERRY SHORTCAKE®

'DWARF RELIANCE'

BLUEBERRY
(*Vaccinium corymbosum*)

'PATRIOT'

Large and sweet dark blue fruit
in early summer | Bell-shaped
flowers | Good fall color

RASPBERRY (*Rubus* hybrid)

RASPBERRY
SHORTCAKE®

Full-size red fruit | No thorns
Great for containers as well as
smaller garden spaces

PEACH (*Prunus persica*)

'DWARF RELIANCE'

Hardy peach variety that self
fruits | Soft, red and yellow
peaches | Quick growing cultivar

Embark on a delightful journey through your garden and discover the wonders that await you. The orchards and garden beds come alive with the promise of abundant harvests, each plant telling its own unique story through its blossoms and fruits. Gardening enthusiasts find great joy in nurturing these botanical wonders, caring for apple and peach trees, and tending to berry patches. It's not just about the fresh produce they provide, but also about the artistry of cultivation. Growing fruit-bearing plants creates a deep connection to the land and fosters a profound appreciation for the cycles of growth and abundance. So, step into your garden and let the wonders unfold before your eyes.

GRAPE (*Vitis labrusca*)

EASTERN CONCORD

Vigorous deciduous vine with bold, deep green foliage | Produces medium clusters of edible, highly aromatic blue-black grapes | Fruit ripens late August to September | Twining habit ideal for arbors, fences, or screening | Reliable, productive addition to edible landscapes

APPLE (*Malus domestica*)

'HONEYCRISP'

Crisp, hardy red apple | Sweet and juicy flavor
Keeps extremely well

CHERRY (*Prunus avium*)

'TARTAN'

Showy white flowers in spring | Sweet, deep red-black cherries | Vigorous with a pyramidal habit

'STELLA'

Highly desirable fruit tree | Small and compact | Ideal for home landscapes and backyard orchards

WILDLIFE GARDENS

ATTRACT POLLINATORS TO INCREASE THE GARDEN'S POTENTIAL

Creating a garden with the intent of offering refuge and sustenance for wildlife ensures lasting joy for both you and your animal companions. These specially chosen plants are ideal for attracting bees, butterflies, birds, and deer, earning them a well-deserved place of prominence in your landscape.

'CORAL REEF'

BEEBALM (*Monarda didyma*)

'CORAL REEF'

Long blooming with sweetly scented salmon-pink four inch blooms in summer | Deer resistant

VIBURNUM (*V. dentatum*)

BLUE MUFFIN®

Native shrub | White flowers develop blue berries if a pollinator, like Chicago Lustre, is planted nearby

ORNAMENTAL ONION (*Allium hybrid*)

'SUMMER BEAUTY'

Interesting 2-inch lilac-pink globe flowers emerge from narrow strappy dark-green foliage | Attracts butterflies

'MILLENIUM'

Upright clump of glossy green, thick, strappy leaves
Lilac-purple rounded clusters | Flowers in mid-summer

BLUE MUFFIN®

'SUMMER BEAUTY'

OAKLEAF HYDRANGEA (*H. quercifolia*)

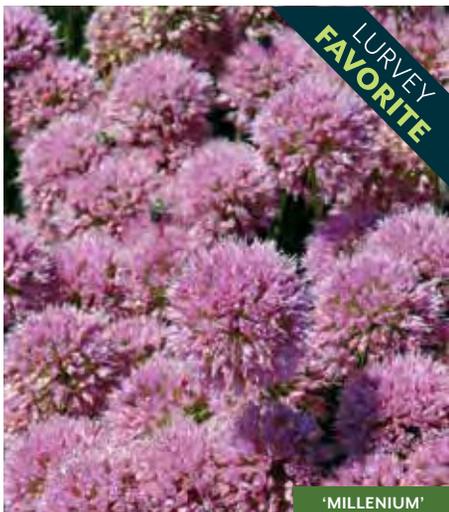

'ALICE'

Showy, fragrant flowers start milky white and fade to pink | Interesting foliage with reliable burgundy fall color

ANISE HYSSOP (*Agastache hybrid*)

'BLUE FORTUNE'

Lightly scented blue flower spikes from mid-summer to mid-fall | Plant in groupings for best effect

'MILLENIUM'

LURVEY
FAVORITE

'BLUE FORTUNE'

KODIAK® ORANGE

BUSH HONEYSUCKLE (*Diervilla* hybrid)

KODIAK® SERIES

Colorful foliage, especially in fall and spring
Small yellow flowers all summer long | A practically zero-maintenance native shrub

KODIAK® ORANGE

KODIAK® JET BLACK

KODIAK® RED 2.0

BLAZING STAR (*Liatris spicata*)

'KOBOLD'

Beautiful spikes of violet flowers rising above the foliage from mid-summer to early fall | Most effective when planted in groupings

PHLOX (*P. paniculata*)

'NICKY'

Conical hot pink star-shaped flowers at the ends of the stems from early summer to early fall | Excellent for cutting

KODIAK® JET BLACK

KODIAK® RED 2.0

STONECROP (*Sedum* hybrid)

'AUTUMN JOY'

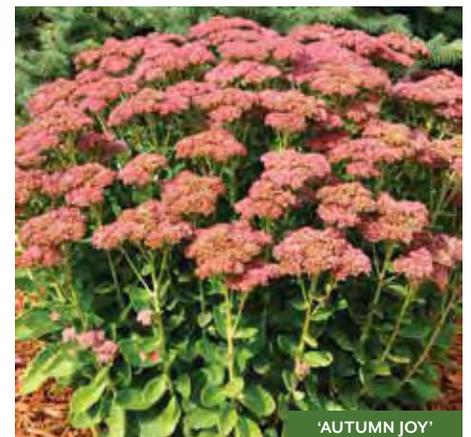

Dense mound completely covered in broccoli-like salmon-pink flowers | Flowers fade to red in early fall | Dusty-green foliage is prominent the rest of the season

'KOBOLD'

'NICKY'

'AUTUMN JOY'

WILDLIFE GARDENS

CATAWBA RHODODENDRON (*R. catawbiense*)

'ROSEUM ELEGANS'

Outstanding broadleaf evergreen shrub with purple-pink flowers in spring | Quite hardy | Good in partial shade | Must have well-drained, highly acidic, and organic soil

TURTLEHEAD (*Chelone lyonii*)

'HOT LIPS'

Rosey-pink flowers, shaped like little turtle heads, appear above deep-green, shiny foliage from late summer to mid-fall | Tolerant to moisture | Spreading habit is fantastic for wet areas

HONEYSUCKLE (*Lonicera x heckrottii*)

'GOLDFLAME'

Purple to deep-pink buds open to sweetly fragrant, golden-yellow, tubular flowers throughout summer | Excellent for trellis, arbors, or fencing | Can be pruned into a dense shrub if preferred

PHLOX (*P. divaricata*)

WOODLAND PHLOX

Smothered in stunning, lightly scented lavender star-shaped flowers from mid to late spring | Narrow green foliage remains low and dense right to the ground

CORAL BELLS (*Heuchera* hybrid)

'PALACE PURPLE'

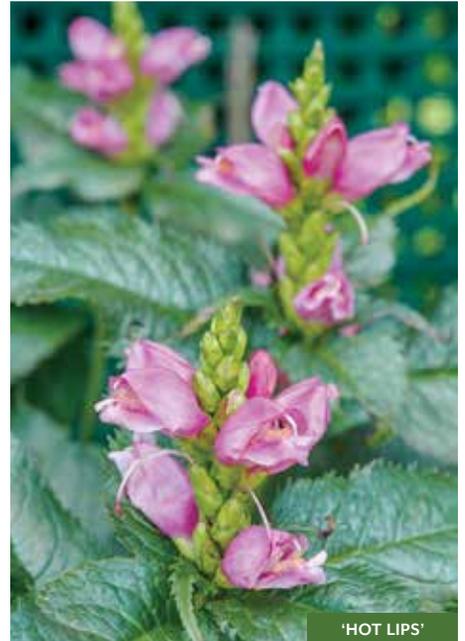

Attractive deep purple leaves with burgundy undersides throughout the year | Dainty spikes of shell pink, bell-shaped flowers from late spring to mid-summer | Herbaceous evergreen

'CARMEL'

Peachy-gold foliage with reddish undersides emerges fully red in spring | Cream-colored bell flowers rise above mounded foliage from late spring to mid-summer | Herbaceous evergreen

'ROSEUM ELEGANS'

CLAY-BUSTING & COMPACT SOIL TOLERANT PICKS

Plants That Thrive Where Soil Works Against You

Heavy clay and compacted soils are common throughout our region and can be frustrating for gardeners. These soils drain slowly, limit oxygen to roots, and become rock-hard when dry. The solution is not replacing soil entirely — it's choosing plants that naturally adapt to these conditions. The following trees, shrubs, perennials, and grasses are proven performers in dense soils, bringing beauty and reliability to even the toughest planting sites.

VARIETIES BEST SUITED TO ADAPT

Quercus bicolor (Swamp White Oak)

Strong, adaptable tree that tolerates heavy clay and poor drainage once established

Physocarpus opulifolius (Ninebark)

Native shrub that thrives in clay with excellent seasonal interest

Rudbeckia fulgida (Black-Eyed Susan)

Dependable bloomer in poor, compacted soils

Sporobolus heterolepis (Prairie Dropseed)

Handles clay while offering soft texture and fragrant flower panicles

WHY IT WORKS

- Deep, fibrous root systems push through dense clay and improve soil structure naturally
- Native and adaptable plants tolerate fluctuating moisture levels common in clay soils
- These selections reduce the need for soil replacement or excessive amendments

DRY SHADE PROBLEM SOLVERS

Bring Life Beneath the Trees

Dry shade is one of the most common and challenging garden conditions — often found beneath mature maples, evergreens, or along the house foundation where roots compete for moisture. The key is choosing plants that can handle low light and limited water once established. These resilient varieties thrive where others struggle, bringing texture and color to forgotten corners.

RELIABLE PERFORMERS FOR DRY SHADE

Cornus alternifolia
PAGODA DOGWOOD
Graceful branching adds structure under larger trees

Aralia cordata 'Sun King'
'SUN KING' JAPANESE SPIKENARD
Bright chartreuse foliage for visual lift

Epimedium x versicolor 'Sulphureum'
YELLOW FLOWER BARRENWORT
Evergreen and deer-resistant

Pachysandra terminalis 'Green Carpet'
'GREEN CARPET' JAPANESE SPURGE
Dense mat for the driest shade

DESIGN & CARE TIPS

- Add compost before planting to hold moisture
- Mulch lightly to cool roots without suffocating them
- Deep water at establishment; reduce over time
- Mix broad leaves, fine grasses, and bold forms for balance

IN THE SHADE

FILL SHADY SPACES WITH COLOR AND INTRIGUING FOLIAGE

Shade plants offer a wide range of lush beauties that thrive in the gentle touch of filtered sunlight. These often-overlooked botanical treasures bring a captivating charm to shaded gardens. From graceful ferns with their delicate fronds to resilient hostas in a variety of colors, plants that love shade bring a rich texture and dimension to any landscape. Gardeners find peace and tranquility in the serene beauty of shade-loving perennials and ground covers that flourish beneath the leafy canopy, creating cool and peaceful havens amidst the vibrant foliage.

JAPANESE PAINTED FERN (*Athyrium nipponicum*)

'PICTUM'

Adds fine textures to garden beds and borders | Low growing habit | Arching grey green fronds with silver variegations | Deep red midribs

IN THE SHADE

FLOWERING DOGWOOD (*Cornus florida*)

'CHEROKEE BRAVE'

Ornamental tree | Blanketed in rich red flowers that fade to white in the centers in spring | Attractive tiered habit

PENNSYLVANIA SEDGE

'MAGGIE DALEY'

SEDGE (*Carex pensylvanica*)

PENNSYLVANIA SEDGE

Native sedge features soft, arching semi-evergreen foliage | Excellent in rock gardens, containers, or as a groundcover

FALSE SPIREA (*Astilbe chinensis*)

'MAGGIE DALEY'

Striking lavender-purple colored plumes rising above glossy leaves | Perfect in a shady spot with dappled light

'AUREOLA'

HAKONE GRASS (*Hakonechloa macra*)

'AUREOLA'

Spreading ornamental grass | Mounds of arching green and gold variegated foliage | Can be used as shaded groundcover

AUTUMN FERN (*Dryopteris erythrosora*)

'BRILLIANCE'

Deep green fronds | Fiddleheads and fronds emerge copper colored

'BRILLIANCE'

WITCHHAZEL (*Hamamelis vernalis*)

VERNAL WITCHHAZEL

Fragrant yellow flowers bloom in late winter
Early-season color when little else is in bloom
Graceful, spreading native shrub | Excellent fall color and cold hardiness | Four-season interest for woodland gardens

'ROSEUM ELEGANS'

VERNAL WITCHHAZEL

CATAWBA RHODODENDRON (*R. catawbiense*)

'ROSEUM ELEGANS'

Outstanding broadleaf evergreen shrub with purple-pink flowers in spring | Quite hardy | Good in partial shade | Must have well-drained, highly acidic, and organic soil

FLOWERING DOGWOOD (*C. kousa*)

CHINESE DOGWOOD

Showy white spring flowers | Rounded, green summer foliage | Striking red berries and brilliant fall color | Small to medium understory tree | Disease resistant and adaptable | Four-season interest

CHINESE DOGWOOD

'PEE WEE'

OAK LEAF HYDRANGEA (*H. quercifolia*)

'PEE WEE'

Compact garden or massing shrub | Showy spikes of flowers which fade from pure white to pink
Spectacular fall color | Papery bark

NATIVE PRAIRIE & SAVANNA PICKS

Midwest Natives Designed to Work Together

Prairie and savanna landscapes once defined much of the Midwest, and today our native plants remain some of the most resilient and rewarding choices for home gardens. These plants are naturally adapted to our climate, soils, and weather extremes, requiring less water and long-term maintenance once established. By grouping compatible native species together, you can create landscapes that support pollinators, manage stormwater, and deliver season-long beauty.

FULL SUN PRAIRIE PICKS

Best for open areas with full sun and average to dry soils

Echinacea purpurea
(Coneflower)

Summer color and pollinator value

Rudbeckia hirta
(Black-Eyed Susan)

Reliable blooms and strong stems

Asclepias tuberosa
(Butterfly Weed)

Native perennial with bright color and monarch support

Schizachyrium scoparium
(Little Bluestem)

Fine texture and fall color

PART SUN SAVANNA PICKS

Best for dappled light and moderately moist soils

Amsonia hubrichtii
(Arkansas Bluestar)

Soft blue flowers and golden fall foliage

Geranium maculatum
(Spotted Geranium)

Spring blooms and groundcover habit

Carex pensylvanica
(Pennsylvania Sedge)

Naturalistic ground layer

Rhus aromatica 'Gro-Low'
(Fragrant Sumac)

Low, spreading nativar with excellent drought tolerance and outstanding fall color

MOIST SOIL PRAIRIE PICKS

Best for low areas and rain garden edges

Iris versicolor
(Blue Flag Iris)

Early color and moisture tolerance

Monarda fistulosa
(Bee Balm)

Fragrance, color, and pollinator magnet

Eupatorium maculatum
'Little Joe' (Joe Pye Weed)

Height and late-season bloom

Aronia melanocarpa
'UCONNAMI65'
'Low Scape Mound'
(Black Chokeberry)

Moisture-tolerant nativar shrub with spring flowers, fall color, and bird-friendly fruit

WHY IT WORKS

- Native plants are naturally adapted to Midwest conditions
- Grouped selections simplify plant choices and improve success
- Supports pollinators, birds, and beneficial insects

DESIGN & PLANTING TIPS

- Plant in loose, informal groupings for a natural look
- Expect roots to establish before plants reach full size
- Leave stems standing through winter to support wildlife
- Use mulch sparingly — many natives prefer open soil

NATIVE PLANTS & NATIVARS — WHAT'S THE DIFFERENCE?

Native Plants are species that evolved naturally in our region and are well-adapted to local soils, climate, and wildlife. They support pollinators and other beneficial species while requiring fewer long-term inputs once established.

Nativars are cultivated selections of native plants, chosen for specific traits such as compact size, unique flower color, or extended bloom time. They offer reliable performance and added design flexibility in home landscapes.

Why Both Matter:

- Natives anchor the ecosystem, supporting wildlife and overall ecological health.
- Nativars offer versatility and consistent performance that helps gardeners achieve their design goals.
- When used together with intention, natives and nativars create landscapes that are both beautiful and beneficial, balancing ecological function with ornamental appeal.

WOODLAND

FOSTERING THE BEAUTY OF THE WILD

Woodland gardens are all about showcasing the beauty of nature and creating a tranquil and varied atmosphere. These gardens, tucked away beneath towering trees, bring together a delightful blend of plants. Graceful ferns and lively wildflowers peacefully coexist, forming a vibrant tapestry that transforms with the passing seasons. Magnificent oaks and maples stand tall, providing a natural shelter and casting refreshing shadows that embrace shade-loving plants. Crafting and upkeeping such a garden demands a deep understanding of the distinctive ecology of wooded landscapes, seamlessly blending the untamed allure of nature with the deliberate artistry of a talented gardener.

OSTRICH FERN

OSTRICH FERN (*Matteuccia struthiopteris*)

OSTRICH FERN

Common and recognizable fern | Very tough and hardy | Tall lacy fronds all season long

CINNAMON FERN (*Osmunda cinnamomea*)

CINNAMON FERN

Elegant fern with giant fronds | Medium green throughout the season | Beautiful apricot color in the fall

CINNAMON FERN

SERVICEBERRY (*Amelanchier x grandiflora*)

APPLE SERVICEBERRY

Grown for its highly ornamental fruit | Showy racemes of creamy white flowers | Leaves turn an outstanding yellow in the fall

APPLE SERVICEBERRY

WOODLAND

LENTEN ROSE (*Helleborus* hybrid)

'IVORY PRINCE'

Dangling buttercup-type flowers of ivory with rose and chartreuse | Emerge in late winter and spring
First flowers to come up in cool weather

JAPANESE SEDGE (*Carex oshimensis*)

'EVERGOLD'

'JACK FROST'

'DEUTCHLAND'

'GHOST'

SUMMER WINE® BLACK

BUGLOSS
(*Brunerra macrophylla*)

'JACK FROST'
Shade loving | Dark green, heart shaped leaves with a silver overlay
Baby blue flowers emerge in the spring
Fast growing mounded habit

FALSE SPIREA
(*Astilbe japonica*)

'DEUTCHLAND'
Low maintenance | Shade loving
Bushy, mounded plants | White plumes rise above mounds of ferny, toothed foliage

JAPANESE PAINTED FERN
(*Athyrium hybrid*)

'GHOST'
Tall and upright | Arching light green fronds with silver overtones | Dark purple stems

NINEBARK
(*Physocarpus opulifolius*)

SUMMER WINE® BLACK
Darkest, dramatic foliage | Foliage emerges a deep wine-red and matures to near black | Showy white flowers in spring

WOODLAND SHADE GARDEN

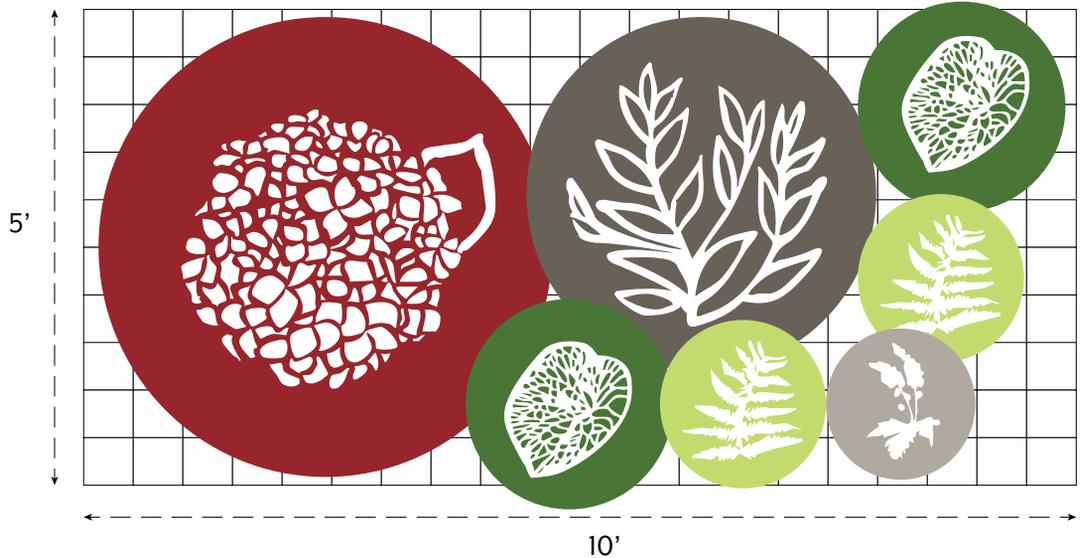

Design

Give your woodland a little magic with this simple yet effective design. Delicate flowers and varied foliage textures will enliven shadowy garden spots.

Designed for low-light areas, this carefully curated blend of plants delivers gentle color, refined textures, and subtle blooms that lift shaded landscapes with ease. Perfect for adding depth and charm to woodland settings or shade gardens.

WINTER INTEREST

PLANTS THAT ENHANCE EVEN THE DULLEST SEASON

The seemingly endless winters in the Midwest can be transformed into a showcase of garden beauty with thoughtful planting decisions. Enhance the allure of your garden, even in the midst of the region's most subdued season. Strategically place these beautiful plants within view from a window near your kitchen sink or favorite chair for an added touch of enjoyment.

'RED SPRITE'

WINTERBERRY (Ilex verticillata)

'RED SPRITE'

These native hollies lose their leaves in autumn, revealing big, colorful berries | Tolerant of shade and wet soil | One male plant will pollinate up to five female plants

DOGWOOD (Cornus sericea)

ARCTIC FIRE®

Intense red stems stand out against the winter snow | Green summer foliage turns an outstanding burgundy in the fall | Compact, hardy native shrub
Shade tolerant

BAILEY'S

An incredibly attractive and vigorous shrub valued for its blazing red stems which glow against the winter snow | Green summer foliage turns an outstanding burgundy in the fall

MESERVE HOLLY (Ilex x meserveae)

'ROYAL FAMILY'

Self-pollinating combination of 'Blue Prince' & 'Blue Princess' | Berries emerge in fall and persist through winter | Evergreen

BAILEY'S

'ROYAL FAMILY'

ARCTIC FIRE®

Did you know?

Plants in your yard can make for beautiful seasonal décor indoors and out, like red twig dogwood stems. They are a staple in holiday containers!

VERNAL WITCHHAZEL (*Hamamelis vernalis*)

WITCHHAZEL

Medium-sized shrub | Showy, fragrant yellow flowers with red bases | Green deciduous foliage emerges burgundy in spring | Outstanding yellow fall color

REED GRASS (*Calamagrostis x acutiflora*)

'KARL FOERSTER'

Plumes of rose flowers above the foliage in mid-summer | Ornamental seed heads on showy plumes from late summer to late winter | Grassy green leaves turn tan in fall

FOUNTAIN GRASS (*Pennisetum alopecuroides*)

PRAIRIE WINDS® 'LEMON SQUEEZE'

Gold-leafed *Pennisetum* | Foliage will not burn in full sun | Copper panicles appear above the foliage in midsummer

RHODODENDRON (*R.* hybrid)

'PJM'

Evergreen shrub with showy purple-pink flowers in spring and a compact upright habit

VARIEGATION

ENHANCING VISUAL INTEREST

Featuring bands, edges, patterns, or even splotches of white, yellow, or pink, variegated plants showcase the leaves. Introducing plants featuring variegation can infuse your landscape with captivating visual interest. This dynamic design tool proves especially effective for illuminating dark, shady corners or directing attention toward key design elements in your outdoor space.

DAPPLED WILLOW (*Salix integra*)

'HIKURO NISHIKI'

One of the showiest of shrubs for foliage color
New growth emerges soft pink and white, fades to white variegation in summer | Prune every winter for maximum effect | Tough and adaptable

BUGLOSS (*Brunnera macrophylla*)

'JACK FROST'

Airy cymes of sky-blue flowers with yellow eyes from early to late spring | Heart-shaped leaves remain silver in color with showy emerald-green variegation throughout the season

HOSTA (*H. hybrid*)

'PATRIOT'

Lavender bell-shaped flowers rising above the foliage in mid-summer | Heart-shaped leaves remain dark green in color with distinctive white edges throughout the season

FEATHER REED GRASS
(*Calamagrostis x acutiflora*)

'OVERDAM'

Yellow-margined foliage topped with red-brown, feathery summer plumes | Plumes mature to rich gold tones in fall | Strong vertical accent ideal for specimen use or dramatic mass plantings | Thrives in sunny, dry northern climates

SEDGE (*Carex morrowii*)

'ICE DANCE'

Attractive, gracefully arching, grassy leaves are forest green with prominent white stripes
Semi-evergreen

LUNGWORT (*Pulmonaria hybrid*)

'PINK-A-BLUE'

Delicate blooms that shift from pink to blue
Silvery-spotted green foliage | Compact, clumping habit perfect for borders and shade gardens
Low-maintenance, drought tolerant | Early spring color for shady spots | Semi-evergreen in Illinois

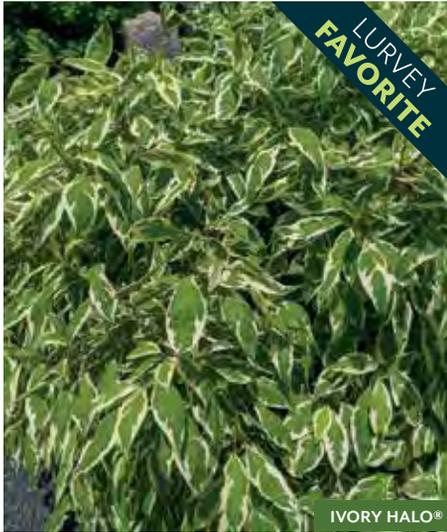

WINTERCREEPER (*Euonymus fortunei*)

'EMERALD 'N' GOLD'

Stunning yellow variegated evergreen leaves turn shades of pink in fall | Superb color accent for screening or as a groundcover

VARIATION

TATARIAN DOGWOOD (*Cornus alba*)

IVORY HALO®

Showy white variegated foliage | Creamy white flowers in spring | Brilliant red stems | Compact, hardy shrub

EUROPEAN BEECH (*Fagus sylvatica*)

TRICOLOR

Colorful accent tree | Green, white, pink, and purple variegated foliage | Deer tolerant | Benefits from afternoon shade

SPOTTED DEAD NETTLE (*Lamium maculatum*)

'GHOST'

Beautiful spikes of fuchsia flowers from mid-spring to early fall | Silvery foliage with dark green edges adds beauty to shady corners | Fast growing groundcover

MY MONET PURPLE EFFECT®

'STAIRWAY TO HEAVEN'

WEIGELA (W. florida)

MY MONET PURPLE EFFECT®

Cream and mint green foliage takes on purple tones | Withstands the rigors of cold climates
Delightful companion to perennials

JACOB'S LADDER (Polemonium hybrid)

'STAIRWAY TO HEAVEN'

Masses of beautiful spikes of lavender flowers
Most effective when planted in groupings | Leaves remain bluish-green in color with showy lemon yellow variegation

BUSH HONEYSUCKLE (Diervilla sessilifolia)

COOL SPLASH®

Glowing white variegated leaves | Yellow trumpet flowers in summer | Compact shrub

COOL SPLASH®

'MORNING LIGHT'

MAIDEN GRASS (Miscanthus sinensis)

'MORNING LIGHT'

Narrow green foliage with a white edge | Upright cascading habit that is quite symmetrical | Copper plumes rise above tan foliage in fall

GROUNDCOVER SPACING

Groundcover	Spacing	Coverage Per Plant	Plants Needed (Multiply by SF)
Pachysandra Vinca Liriope	6"	0.25 sf/Plant	4.00 Plants per sf
Sedum Ajuga	9"	0.56 sf/Plant	1.79 Plants per sf
Euonymus 'Coloratus' English Ivy	12"	1.0 sf/Plant	1.00 Plants per sf
Lamium	18"	2.27 sf/Plant	0.44 Plants per sf

SHRUB AND TREE SCREENING HEDGE

Plant Examples	Plant Width (Spread)	Spacing	Plants Needed (Multiply by LF & Add 1)
Boxwoods	3'	24"	0.5
'Emerald Green' Arbs	4'	36"	0.34
Viburnum	5'	42"	0.29
Privet	6'	48"	0.25
	7'	60"	0.2
'Techny'/ 'Nigra' Arbs	8'	5.5'	0.18
	10'	7'	0.14
'Green Giant' Arbs	12'	8.5'	0.12
	15'	10.5'	0.09
	18'	12.5'	0.08
Spruce	20'	14'	0.07
	22'	15.5'	0.06
	24'	17'	0.05

SHRUB AND TREE GROUP PLANTING

Plant Examples	Plant Width (Spread)	Spacing	Plants Needed (Multiply by SF)
Weigela 'Midnight Wine'	18"	15"	0.64
Aronia 'Low Scape Mound'	24"	20"	0.36
Spirea	30"	24"	0.29
Hydrangea	36"	30"	0.18
Cotoneaster	48"	42"	0.09
Juniper	5'	48"	0.07
Aronia 'Viking'	6'	5'	0.05
Physocarpus 'Coppertina'	7'	5.5'	0.04
Viburnum 'Chicago Lustre'	8'	6.5'	0.03

B&B SIZING AND WEIGHT GUIDE
