CONCRETE PRODUCTS

2026 HARDSCAPES COLLECTION

Our HARDCAPES...

At Rochester Concrete Products, we don't just see hardscapes—we see a place where family gatherings, quiet moments, and endless memories unfold. We see possibilities to create stunning, lasting spaces that bring potential future memories to life.

With over a century of craftsmanship and expertise behind us and new state-of-the-art facilities now online, we're setting a new standard for beauty, quality, and durability. Our products are built to withstand the test of time, with rich, durable colors and unique finishes that ensure your backyard is as captivating tomorrow as it is today.

Our latest innovations in pavers and walls are here to help you shape the backyard of your dreams—one that's not just a space, but a lasting reflection of your style. At Rochester Concrete Products, we don't just build patios and walkways; we help you create memories for years to come.

Rochester Concrete Products is a third-generation, family-owned manufacturer of mortarless concrete products dating back to 1914. We have consistently produced an extensive line of innovative hardscapes and building products that pass rigid quality control requirements — meeting or exceeding ASTM standards for strength, durability and freeze/thaw.

PLEASE NOTE: Our products are made from facemix or solid color concrete for lasting appearance and durability. Photographs contained herein are for representation only. Refer to actual product samples when making color selection. Product dimensions given are nominal. See the RCP Product Guide for packaging, pallet configurations, product specifications, patterns, detailed descriptions and warranties.

The information presented here has been prepared for the benefit of customers interested in Rochester Concrete Products. Rochester Concrete Products assumes no liability for its accuracy or completeness. Final determination of the suitability of any information or material for the use contemplated, or for its manner of use, is the sole responsibility of the user. Certain products not available in all areas.

The NEW STANDARD for YOUR HOME

In 2024, with the opening of our newest plant in Jordan, MN, Rochester Concrete Products is setting a NEW STANDARD for hardscape products that homeowners can trust. When you select an RCP product for your project you get:

VIBRANT COLORS MADE TO LAST: Our state-of-the-art Chroma Color system produces a saturated layer of vibrant color on the surface of the pavers creating bold, rich colors that will last.

CONSISTENT QUALITY: Precise, computerized controls throughout the manufacturing process, produce consistent colors, surfaces, and edge details—ensuring a seamless look for your patio, walkway, or driveway every time.

UNMATCHED DURABILITY: We use the finest raw materials and latest technology to ensure you are as happy with the look of your project in five years as you are today.

Protection from staining, fading and the effects of weather are all built into our manufacturing process.

When selecting pavers and other hardscape products for your outdoor space, focus on key elements such as color, style, pattern, and detail to create a cohesive design that complements your home's roofing, siding, and stonework while reflecting your personal taste. Consider how textures, shapes, and surface finishes align with your architectural style and intended use of the space. Explore patterns and accents like inlays, caps, or borders for added flair. Most importantly, prioritize quality and durability when selecting products to ensure your hardscape not only enhances your space visually today but stands the test of time.

For all these decisions, engaging with a qualified landscape professional can help make the process easier and ensure your decisions support your overall vision for your project.

CHROMA COLORING SYSTEM SETS the NEW STANDARD for COLOR VIBRANCY, CONSISTENCY and DURABILITY.

Chroma Color™ facemix combines carefully selected pigments and fine-grade materials to create a surface with exceptional richness and visual detail. Each unit showcases subtle tonal shifts that elevate the character and authenticity of the paver. Built for durability and lasting vibrancy, Chroma Color keeps outdoor spaces looking warm, modern, and beautifully finished for years.

CHROMA SHIELD+ PROTECTED PAVERS STAND UP to the DAMAGING EFFECTS of TIME and MOTHER NATURE.

CHROMA SHIELD+: THE NEXT EVOLUTION IN COLOR & STAIN PROTECTION

Developed using the latest breakthroughs in surface sealing technology, Chroma Shield+ delivers a deeper, more resilient layer of protection designed to keep hardscape surfaces looking vibrant, clean, and beautiful for years to come.

DEEPER PROTECTION. LONGER-LASTING COLOR. SUPERIOR PERFORMANCE.

Chroma Shield+ works at the microscopic level, penetrating the paver's facemix to form a powerful, long-lasting protective barrier. This advanced integration of concrete and sealer technology enhances the natural richness of our Chroma Color™ facemix while significantly improving fade resistance—even under intense UV, heavy use, and extreme weather conditions.

ENHANCED STAIN RESISTANCE

Chroma Shield+ reduces the porosity of the pavers surface keeping stains and spills on the surface instead of penetrating into the paver. Pavers treated with Chroma Shield+ offer exceptional resistance to stains from common items such as wine, ketchup, mulch, leaves, and other outdoor materials.

While no paver is completely stain-proof, most stains remain on the surface and can be easily cleaned with simple soap, water, and a brush.

**CHROMA
SHIELD+™**

INTRODUCING THIS YEAR'S NEWEST HEAD-TURNING COLORS!

Three new 2026 paver colors (Sedona, Sterling, and Kodiak Sand) join Sahara from last year, to reflect the continued shift in outdoor design toward warm, comforting earth tones paired with sophisticated neutrals.

Homeowners and designers are increasingly gravitating toward palettes that feel grounded, natural, and timeless.

Our new 2026 colors were developed to give you more options to capitalize on these trends in homeowners preferences.

While subtle in their variation, each new color offers homeowners nuanced design and sophistication that allow them to express their unique vision for their outdoor space

SAHARA features a warm, sun-washed blend of soft beige and subtle cream tones, creating a natural, inviting aesthetic that complements both modern and traditional designs. Its gentle tonal movement adds depth without overwhelming the space. The overall effect is light, warm, and effortlessly timeless.

KODIAK SAND brings a refined, natural warmth with its soft beige and off-white base accented by subtle charcoal veining. The gentle movement in the surface adds visual interest while maintaining a clean, versatile look suited for a wide range of outdoor designs. It delivers an elevated, on-trend aesthetic that blends seamlessly with both warm and cool design palettes.

NEW

NEW

STERLING offers a soft blend of warm grey and subtle white, creating a clean, modern look with subtle tonal movement. Its understated elegance makes it an easy, versatile choice that pairs beautifully with both contemporary and classic outdoor design.

SEDONA captures the warm, earthy character of its namesake—echoing the rich, sun-baked tones and subtle striations reminiscent of Sedona, Arizona's iconic desert landscapes. Its blend of deep browns and soft golden highlights brings a naturally rugged yet refined aesthetic, perfect for creating inviting outdoor spaces with a hint of Southwestern warmth.

- E-Z Access Spark Screen: keep ash and sparks inside and debris out, hinged for easy access
- Cover: heavy galvanized steel with or without cooking grate slot

Designed for slab, paver or gravel bases, the **GRAND GAS FIRE RING KIT** has both style and convenience. Smokeless and ashless, it's an ideal alternative for properties with open burning restrictions.

- Push-button electronic ignition, 65,000 max BTU/hr
- NG or LP fuel type, thermo-couple auto shut-off feature
- #304 stainless steel construction
- 30 lbs. lava rock
- Colors: Beechwood, Bluestone, Cascade, Santa Fe

Optional: Grand Canyon Ceramic Log Set, Fire Ring Block Layer (adds layers to increase height)

VICTORIAN FIRE PIT KIT:

- Four-piece, heavy gauge steel insert protects block
- Optional Swivel Cooking Grate
- Colors: Beechwood, Bluestone, Cascade, Santa Fe

Pillars can be added to Seatwalls or built as a freestanding landscape feature, such as a property marker or light base. Choose from Beechwood, Bluestone, Cascade, Santa Fe colors.

a) 20" PILLAR KIT:

- 2.25" H chiseled cap

b) 24" PILLAR KIT:

- 2.25" H chiseled cap

c) LAKELAND SEATWALL KIT:

- Creates a 6' straight wall
- Optional chiseled cap

d) RIVERLAND SEATWALL KIT:

- Creates an 8' radius wall
- Optional chiseled cap

FEATURES:

- #443 stainless steel construction
- Push-to-turn knob ignition, 3" temp gauge
- 12,000 BTU #304 stainless steel burners
- 15,000 BTU infrared back burner
- Natural gas or propane fuel
- Double-lined hood assures optimal airflow
- 8mm cooking grates won't warp or rust
- Easy-clean briquette system for even heat
- 14,000 BTU cast burners
- Heat zone separators
- Interior cooking lights, LED lit controls
- Optional Deluxe Rotisserie*:
 - #304 stainless steel
 - Heavy-duty motor, 25 lb. capacity

* Requires 120 volt electrical

Rochester Concrete Products (RCP) designs and manufactures products built to withstand the test of time — the everyday challenges of weather, use, and nature. Our Limited Lifetime Warranty assures homeowners can rest assured that what's meant to last, will last — and if it doesn't, RCP will stand behind it.

LIMITED LIFETIME WARRANTY

Applicable to Pavers, Slabs, Segmented Retaining Walls (SRWs), and Free-Standing Walls (FSWs).

IMPORTANT NOTICE

Read this entire RCP Limited Lifetime Warranty and Limitation of Liability ("Limited Warranty"). Proper installation and maintenance are essential for our products to perform successfully throughout their intended lifespan. The contractor must install products in accordance with the masonry industry's best practices as defined by the Concrete Masonry and Hardscapes Association (CHMA) standard specifications, and the manufacturer's instructions. Installation guides, technical data, and product specifications can be found at www.rochestercp.com.

Installers and design professionals are responsible for reviewing applicable technical information and, when required by site conditions, obtaining independent soil testing, quality assurance inspection, and design services necessary to ensure a safe and functional installation.

Rochester Concrete Products is not liable or responsible for loss or damage resulting from improper storage, handling, lack of or poor maintenance practices, or faulty installation.

COVERAGE

This Limited Warranty applies only to RCP-manufactured products purchased and used as part of Rockwood Retaining Wall or Hardscape Systems installed in owner-occupied single-family homes within the United States, subject to the stated conditions and limitations.

This warranty does not extend to any current or future products distributed, but not manufactured, by RCP, nor does it apply to commercial, governmental, or multi-residential applications.

TERMS OF COVERAGE

This limited warranty covers any structural failure or deterioration of the concrete products manufactured by RCP resulting from normal use. RCP warrants that its products will be free from manufacturing defects that impact the structural performance of RCP products for as long as the original homeowner owns their home.

While RCP tries to prevent damage during shipping & handling, some minor damage to individual pieces is routine for all hardscape products. Contractors should anticipate up to a 3% waste factor when bidding jobs.

Purchasers need to ensure that the product purchased is appropriate for the intended application; for example, only certain products are appropriate for use with vehicular traffic.

RCP reserves the right to seek a professional diagnosis and opinion to determine the exact cause of the product failure. If the failure falls within this warranty program's parameters and RCP is given prompt notice of a defect, RCP shall, at its sole option:

1. Repair or replace the defective product(s), or
2. Refund the original purchase price of the defective product(s).

If RCP elects to replace damaged product, color matching of the replacement product and/or lost time cannot be guaranteed and if replacement is elected, RCP's sole obligation is to deliver suitable replacement product to the property. Labor costs related to installing replacement product is not included as part of this warranty.

If RCP elects to repair damaged product, it will provide labor necessary for the repair.

This Limited Lifetime Warranty is provided only to the original owner(s) of the home and may not be transferred.

LIMITATION OF LIABILITY

This Limited Warranty defines the maximum liability for RCP products.

IN NO EVENT (INCLUDING WHERE THIS LIMITED WARRANTY IS DEEMED NOT TO APPLY) SHALL ROCHESTER CONCRETE PRODUCTS, GLS INDUSTRIES, INC., OR ROCKWOOD RETAINING WALLS, INC. BE LIABLE FOR ANY INCIDENTAL, CONSEQUENTIAL, OR SPECIAL DAMAGES RESULTING FROM THE SALE, INSTALLATION, OR USE OF ANY RCP PRODUCTS.

Some states do not allow the exclusion or limitation of incidental or consequential damages; in those states, the limitation may not apply.

LIMITATION OF WARRANTY

RCP MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

DISCLAIMER – WHAT THIS WARRANTY DOES NOT COVER

RCP is not responsible for, and this Limited Warranty does not cover:

1. Product failure, loss, or damage due to:
 - Normal wear and tear
 - Improper handling or installation
 - Repeated or extended contact with chemicals, including de-icers
 - Acts of God
 - Structural settlement, movement, or vibration
 - Products not paid for in full
2. Minor imperfections, including:
 - Minor texture or color variations
 - Minor imperfections in shape, dimensions, or appearance
 - Efflorescence (white powdery surface film)
 - Other surface characteristics covered under ASTM C1372 standards

CONDITIONS OF WARRANTY

Prompt Notice of Defect:

Homeowners must notify RCP in writing of any defect within one (1) year of discovery, and in no case later than one (1) year from when the defect should have been discovered. Failure to notify RCP within this timeframe will void this warranty for that claim.

EXCLUSIONS & EXCEPTIONS

GeoCeramica is covered under a unique warranty separate from the standard RCP warranty. It is warranted against structural defects and damage resulting from normal, approved use. Please note that damage caused by installation techniques outside of RCP recommendations is not covered. This includes, but is not limited to, issues related to poor drainage, inadequate base preparation, or improper installation of joint materials.

CLAIM PROCEDURE

Claims under this Limited Warranty must be submitted in writing to:

Rochester Concrete Products
7200 Broadway Ave. N, Rochester, MN 55906

Claims should include:

1. Claimant's name, address, and phone number, and installation address (if different)
2. Description of product, date and location of purchase, and copy of invoice (if available)
3. Description of defect (photos required)
4. Summary of any actions taken to address the issue

This Limited Warranty is not a statement of the useful life of any RCP product.
